CITY CREATES HOTLINE FOR POTHOLE REPAIRS

This week, the City of Escondido launched a telephone hotline (760) 839-4FIX (4349) for reporting potholes on Escondido streets. The hotline allows callers to leave information about pothole locations and is monitored by city Maintenance and Operations staff. The intent of the hotline is to more efficiently facilitate repairs of potholes in the city.

Pothole repair requests may also be submitted online at www.escondido.org . The online repair request form can be found on the "Find it Fast" menu, the "A-Z" listings and the "E-services" links on the City's home page.
