Hi, Council. I would like to point your attention to failed Congressional candidate and Capitol insurrectionist David Chiddick. This fascist is the owner of the Escondido Police Department's favorite stop for coffee, KKKoffie. (If you take issue with the Ku Klux Klan reference, this alleged child groomer literally put three cups with the letter K on them next to each other while he was at the Capitol on January 6, 2021 and posted the photo on the Instagram account for his shop.)

Chiddick recently called for attacks on Jacked Up Brewery on Grand Avenue because they wanted to host a drag show. And he and his fellow domestic terrorists from the COVID superspreader known as the Awaken Church in San Marcos are now targeting more drag shows in North County. They want to terrorize the LGBTQ+ community. This is disgusting and disgraceful.

I want to see this council take action to protect the LGBTQ+ community from violent thugs like David Chiddick. This behavior should not go unpunished. Frankly, he should have been thrown in jail for participating in the insurrection. Citizens of the city must never give his crappy business any money and tell anyone who does to eff off. The threats of violence coming from the likes of him are not welcome in Escondido!

\* Do not read this part to the council, but this is a written comment on item #16, I cannot make it in person to speak\*

Good Afternoon council my name is Carlos Schwab the third, thanks for taking my comment via internet. It is unfortunate that I am unable to make it in person & have to compromise by listening online; I wish the council would allow Zoom or Phone call participation, perhaps in the future?

Anyhow, I oppose the passing of item number 16 that approves the purchase of gasoline from company, "SC fuels", & hope you will reject it as well. Let me explain. With gas prices "sky rocketing" here in California & likewise nationwide some think that the abnormal price for gasoline is a bad thing or a matter of inconvenience, but instead its actually quite the opposite! This is great! This indicates progress. We & I mean globally, all of us are finally starting to see & feel, what our wonderful globalist elites from the World Economic Forum, the Bilderberg group, the Davos Group, & the Bohemian Grove members have envisioned for us humans, implementing action into what they have in store for humanity. We Americans cannot support anymore domestic production & distribution of oil & gasoline anymore, SC Fuels is a California based company & they are polluting our state. Us Californians must not undo, the tremendous progress President Joe Biden has made in drastically shifting the United States away from coal, natural gas, petroleum, & other carbon based energy forms.

Listen, I get it, gas prices affect everyone from the lower & middle class, to the people who immigrated to this country (legally or illegally) to seek better opportunities. But progress knows no boundaries & naively or blindly, clinging to morality that utter garbage ideology stemming from Judaism & later expanded upon from Christianity is only stalling global progress. Listen people will suffer & people will unfortunately die, but our green energy push only yields positives & no negatives. Together with determination & decisive leadership we can achieve the new world order, but, we need to change our

priorities, what's sustainable for the future, is it the created human kind or the creatures & nature? A global economic model is key, by making people adhere to the heart of the global values, we can fix the planet, but we cannot waste anymore time, our willingness to act starts now. Stop contributing to gas & oil domestically, great countries like Saudi Arabia, Iran & Venezuela can provide for us. Thank you for listening & know you'll make the right decision.
