

## 2017 ESG NOFA: Developer Questions and Answers

Q. I wanted to reach out to ask you about the allowable admin costs within the \$125,000 ESG award. Is this amount reflective of the administrative costs the City of Escondido has already reserved for the administration of this grant?

A. The 2017-2018 Federal Budget is still under discussion. \$125,000 reflects the amount of ESG funds anticipates receiving, net the administrative costs the City of Escondido has already reserved for the administration of the grant. If the City receives the funding anticipated, the City would be able to contract out \$125,000.
