

## **Notice of Funding Availability (NOFA): ESG funds in the City of Escondido**

### **Questions and Answers**

Q. We're considering applying for ESG funding, and had a question come up about the 100% match requirement. Can we use other grant funding (from either federal, state, or local entities) for that match?

A. State or local, not other federal.

Q. In the ESG grant application, under "9. Certification," it indicates a board officer has to sign the application. Is that correct? Or can our CEO sign it (if the board resolution included gives him the authority to apply for funds)?

A. Your CEO can sign it as long as you include the resolution.
