**Site Access Contact:** Site not fenced.

**Inspection Date:** November 16, 2021 **Report Date:** November 23, 2021

**Site Assessor:** Timothy Lester – Principal

**Environmental Professional (EP) Certification:** I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in 40 CFR 312.10 (**Resume, Appendix F**).

Timothy Lester

**AAI Certification:** We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Timothy Lester

## EXECUTIVE SUMMARY

At the request and authorization of the Client (Via West Group, LLC), TA-Group DD conducted a Phase I Environmental Site Assessment (ESA) for an approximately 4.94-acre property located south of Barham Drive, and northwest of Meyers Avenue and Corporate Drive, in the City of Escondido, San Diego County, California. The apparent site address is 2351 Myers Avenue. The purpose of this Phase I ESA was to assess the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment (i.e., *recognized environmental condition* as delineated in ASTM International *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*, Designation E1527-13 [ASTM E1527-13]).

The following bulleted items summarize the information obtained during the preparation of this ESA:

- The subject property is located south of Barham Drive and northwest of the intersection of Meyers Avenue and Corporate Drive, in the City of Escondido, San Diego County, California (**Figure 1**). The subject property is comprised of approximately 4.94-acres of undeveloped land. The subject property encompasses one (1) parcel identified by Assessor's Parcel Number (APN) 228-312-05-00 (**Appendix B**). The Subject Property address is 2351 Myers Avenue.
- In general, subject property is located in a mixed-use area consisting of residential and commercial development. To the north, the property is bound by a self storage facility, with recreational vehicle (RV) storage, Barham Drive, and State Route 78 (SR-78) beyond. To the south, the subject property is bound by commercial development. Meyers Avenue bounds the subject property to the east, with commercial development beyond, and to the west, the subject property is bound by a new residential community (under construction) and a mobile home park. According to the City of Escondido Planning Department, the subject property is zoned as Light Industrial (M-1).
- Based on historical records such as aerial photographs, topographic maps, and previous reports, the subject property has historically consisted of undeveloped land. Adjacent property has predominantly consisted of a mix of residential, commercial and light industrial from as early as 1967 until at least 2020, increasing over time. Property within the site vicinity to the west appeared to be developed with an orchard from approximately 1953 through 1996, after which, the orchard appeared inactive.
- On November 16, 2021, TA-Group DD personnel conducted a reconnaissance of the subject property to physically observe the property and adjoining properties for conditions indicating a potential environmental concern. Concerns would include any evidence of contamination, distressed vegetation, petroleum-hydrocarbon staining, waste drums, illegal dumping, or improper waste storage and/or handling. Staff noted small amounts of trash and dumping at several places within the subject property, including within the property's northeast corner where a small quantity of what appeared to be concrete/ash was observed. No evidence of environmental concerns above the *De Minimis* threshold was noted on the subject property during our site reconnaissance.
- TA-Group DD performed a Vapor Encroachment Screen (VES) for the subject property, in accordance with ASTM E2600-15. The purpose was to evaluate whether sites (e.g., gas stations,

dry cleaners, or other listings of environmental concern) that store or dispose of potential chemicals of concern or have documented releases, may migrate as vapors onto the property, as a result of contaminated soil and/or groundwater which may be present on or near the property (i.e., a potential Vapor Encroachment Condition or pVEC). Based on TA-Group DD's Tier 1 Screening evaluation, six (6) sites were identified within the AOC that were considered to pose a potential VEC (pVEC) at the subject property. The presence of the identified pVEC necessitated a Tier 2 Screening, in accordance with ASTM E2600-15, to assess whether or not documented soil and groundwater contamination is located within the critical distance to the subject property, which could result in a VEC. Based on the results of the VES, TA-Group DD concluded that a VEC can be ruled out based on: 1) the sites' cross or down-gradient location as it relates to groundwater flow direction; and 2) the distance from the contaminated soil and/or groundwater to the subject property is greater than the critical distance (for chemicals of concern) of 100 feet.

### Findings and Opinions

Based on the information obtained in this ESA, TA-Group DD has the following findings and opinions:

- *Known or suspected RECs* – are defined by the ASTM E1527-13 as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

This assessment has revealed no evidence of *known or suspected RECs* in connection with the subject property.

- *Controlled RECs (CRECs)* – are defined by the ASTM E1527-13 as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

This assessment has revealed no evidence of *CRECs* in connection with the subject property.

- *Historical RECs (HRECs)* – are defined by the ASTM E1527-13 as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

This assessment has revealed no evidence of *HREC's* in connection with the subject property.

- *De Minimis Conditions* – include environmental concerns identified which may warrant discussion but do not qualify as RECs, as defined by the ASTM E1527-13.

Small quantities of trash and concrete/soil are located near the Northeast end of the property which are considered *de minimis* conditions.

### Conclusions and Recommendations

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM E1527-13 of APN 228-312-05-00, the *subject property*. Any exceptions to, or deletions from, this practice are described in Section 7.0 of this report.

This assessment has revealed no evidence of *recognized environmental conditions* in connection with the *subject property*.

## 1.0 INTRODUCTION

### 1.1 Purpose

The purpose of this Phase I Environmental Site Assessment (ESA) was to assess the possible presence of *recognized environmental conditions* for the approximately 5-acre property located south of Barham Drive, and west of Meyers Avenue and Corporate Drive, in the City of Escondido, San Diego County, California (**Figure 1**). *Recognized environmental conditions (RECs)* include property uses that may indicate the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. The term *REC* is not intended to include *de minimis* conditions that generally do not present a material risk of harm to public health or the environment, and that would not be subject to enforcement action by a regulatory agency.

This ESA was performed in general conformance with the ASTM International *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*, Designation E1527-13 (ASTM E1527-13).

### 1.2 Scope of Services

The following scope of services was conducted by TA-Group DD:

- A review of readily available documents which included topographic, geologic, and hydrogeologic conditions associated with the subject property.
- A review of readily available maps, aerial photographs, and other documents relative to historical subject property usage and development.
- A review of previous environmental reports and regulatory file information pertaining to both existing and historic property conditions.
- A review of readily available federal, state, county, and city documents and database files concerning hazardous material storage, generation and disposal, active and inactive landfills, existing environmental concerns, and associated permits related to the subject property and/or immediately adjacent sites.
- A site reconnaissance to ascertain current conditions on the subject property.
- Interviews with person(s) knowledgeable of the subject property.
- The preparation of this report which presents our findings, conclusions, and recommendations.

### 1.3 Reliance

This ESA has been prepared for the use of Via West Group, LLC (Client). This assessment should not be relied upon by other parties without the express written consent of TA-Group DD and Client. Any use or reliance upon this assessment by a party other than the Client; therefore, shall be solely at the risk of such third party and without legal recourse against TA-Group DD, its employees, officers, or director regardless

of whether the action in which recovery of damages is brought or based upon contract, tort, statute or otherwise.

This assessment should not be interpreted as a statistical evaluation of the subject property, but rather is intended to provide a preliminary indication of onsite impacts from previous property usage and/or the release of hazardous materials. If significant indicators of the presence of hazardous materials and/or petroleum contamination are not encountered during our research, such substances may still be present. The findings in this report are based upon published geologic and hydrogeologic information, information (both documentary and oral) provided by the Client, various local, state and federal agencies, Environmental Risk Information Services (ERIS) (i.e., agency database search), and TA-Group DD's field observations. Some of these data are subject to change over time. Some of these data are based on information not currently observable or measurable but recorded by documents or orally reported by individuals.

## **2.0 PHYSIOGRAPHIC SETTING**

### **2.1 Subject Property Description**

The subject property is located south of Barham Drive and northwest of the intersection of Meyers Avenue and Corporate Drive, in the City of Escondido, San Diego County, California (**Figure 2**). The property is comprised of approximately 4.94-acres of undeveloped land and encompasses one (1) parcel identified by Assessor's Parcel Number (APN) 228-312-05-00 (**Appendix B**). The subject property address is 2351 Myers Avenue.

In general, subject property is located in a mixed-use area consisting of residential and commercial development. To the north, the property is bound by a self storage facility, with recreational vehicle (RV) storage, Barham Drive, and State Route 78 (SR-78) beyond. To the south, the subject property is bound by commercial development. Meyers Avenue bounds the subject property to the east, with commercial development beyond, and to the west, the subject property is bound by undeveloped land, with a mobile home park beyond. According to the City of Escondido Planning Department, the subject property is zoned as Light Industrial (M-1).

### **2.2 Topography**

The subject property is located on the United States Geological Survey (USGS), Valley Center, Rancho Santa Fe, San Marcos and Escondido, California, 7.5 Minute quadrangle maps (USGS, 2015). The map indicates the elevation of the subject property ranges from approximately 741 feet above mean sea level (amsl) within the southwestern region down to roughly 700 feet amsl within the northeastern region of the property. Based on overall topography, the subject property is generally of moderate relief, with surface drainage trending towards the northeast.

### **2.3 Regional and Local Geology**

The subject property lies within the Peninsular Ranges Geomorphic Province. The Peninsular Ranges geomorphic province, one of the largest geomorphic units in western North America, extends from the Transverse Ranges geomorphic province and the Los Angeles Basin, south to Baja California. It is bound on the west by the Pacific Ocean, on the south by the Gulf of California and on the east by the Colorado Desert Province. The Peninsular Ranges are essentially a series of northeast-southeast oriented fault blocks (CGS, 2002).

Major fault zones and subordinate fault zones found in the Peninsular Ranges Province typically trend in a northwest-southeast direction. Three (3) major faults zones and some subordinate fault zones are found in this province. The Elsinore Fault zone and the San Jacinto Fault zones trend northwest-southeast, and are found near the middle of the province. The San Andreas Fault zone borders the northeasterly margin of the province, whereas, a fault related to the San Andreas Transform Fault System, the Newport-Inglewood-Rose Canyon Fault zone exists near the western margin and Continental Borderland Geomorphic Province (CDMG, 1977).

Regional geologic maps of the subject property and vicinity (published by the California Geological Survey (USGS) indicate the property is underlain by Cretaceous-age undivided tonalite materials (decomposed granitic rock, map symbol Kt). These tonalite materials are considered massive, and typically comprise coarse-grained, light-gray hornblende-biotite tonalite (EEI, 2018).

Soils in the vicinity of the subject property has been identified by the United States Department of Agriculture - Natural Resource Conservation Service (USDA-NRCS), online Web Soil Survey database as a mix of loams of the Vista Series and Fallbrook Series, ranging from 2 to 15 percent slopes (USDA, 2020). The Vista Series consist of shallow, well drained soils that are residuum weathered from granodiorite and quartz diorite. The Fallbrook Series consists of well drained soils that are residuum weathered from granodiorite. Vista and Fallbrook soils are on hills and have slopes of 5 to 15 percent, and 2 to 5 percent, respectively. These soils have low to medium runoff and high to moderately high permeability, respectively.

#### **2.4 Regional and Local Hydrogeology**

According to the California Regional Water Quality Control Board, San Diego Region (CRWQCB 1994), the subject property is located within the Richland Hydrologic Sub Area (HAS), of the San Marcos Hydrologic Area (HA), of the Carlsbad Hydrologic Unit (HU-904.00). Designated beneficial uses of groundwater in the San Marcos HA are for municipal and domestic supply, agricultural supply, and industrial service supply (CRWQCB, 1994).

Based on topography, and general knowledge of the hydrogeology in the site vicinity, groundwater is estimated to flow generally towards the north-northwest. Groundwater depth and flow direction beneath the site may vary due to proximity to creeks and streams, local irrigation practices, seasonal rainfall, and fracture systems in the underlying bedrock units.

TA-Group DD contacted the County of San Diego Department of Environmental Health Land and Water Quality Division (LWQD) to inquire about the presence of water supply wells and/or septic systems on the subject property. According to an emailed response from Ms. Daisy Ghormley, dated October 22, 2020, no record of water supply wells or septic systems are on file with the department.

TA-Group DD reviewed the California Department of Water Resources – Water Data Library (DWR-WDL) website for information pertaining to groundwater and water supply wells on or close to the subject property. According to the website, there are no water supply wells located on or in the immediate vicinity of the subject property. The closest water well (State Well No. 12S02W09R002S) is located approximately 2.58-miles to the east-northeast of the subject property and was last gaged on June 15, 1987. At that time ground surface to water surface was 7.96-feet below ground surface (bgs) (WDL, 2020).

Additional data regarding groundwater was obtained from the State Water Resources Control Board (SWRCB), online GeoTracker website for the nearest site with available data; the **Former Hebdon Electronics Site**, located at 655 Opper Street, approximately 0.11 mile east of the subject property. TA-Group DD reviewed a Groundwater Monitoring Report for an event conducted at the site between May 31, 2016 and June 6, 2016 by Compliance Monitoring Services. Reported groundwater depths ranged from approximately 3.28 feet below top of casing (BTOC) to 14.30 feet BTOC. Data indicated that local groundwater flow direction was reported towards the north-northwest.

## 2.5 Hydrologic Flood Plain Information

TA-Group DD reviewed the Federal Emergency Management Agency (FEMA) Flood Insurance Rate Map (FIRM) online database (FEMA, 2020) to determine if the subject property was in a flood zone. According to Panel No. 06073C0794G - effective May 16, 2012, the subject property is located within flood Zone X. FEMA defines Zone X as an area of minimal flood hazard, usually depicted on FIRMs as outside the 500-year flood plain. A copy of the FIRM is included in **Appendix B**.

## 3.0 SUBJECT PROPERTY BACKGROUND

### 3.1 Subject Property Ownership

Information regarding the ownership of the subject property was obtained from a First American Title Company "Owners Policy of Title Insurance" provided by the property owner. According to the document the current owner of the subject property is listed as "VWP Acquisitions, LLC". A copy of the Policy with detailed parcel and legal descriptions is included in **Appendix B**.

### 3.2 Subject Property History

TA-Group DD reviewed readily available information sources to evaluate historic land use in and around the subject site. These information sources include aerial photographs, United States Geological Survey (USGS) maps, and city and/or county records. The information sources are reviewed in the following sections.

#### 3.2.1 Historical Aerial Photograph and Topographic Map Review

Historical aerial photographs and topographic maps were reviewed to identify historical land development and any surface conditions which may have impacted the subject property. Photographs and historical topographic maps dating between 1893 and 2020 were obtained and reviewed from ERIS®. An aerial photograph was also obtained from Google Earth® and used to prepare **Figure 1** (Aerial Site Map).

**Table 1** summarizes the results of the aerial photograph review. Reviews were made at approximate 5-year jumps on recent maps to lessen repetitive data. Copies of all aerial photographs and historical topographic maps provided by ERIS® are included in **Appendix C**.

<b>TABLE 1</b>		
<b>Summary of Historical Aerial Photograph and Topographic Map Review</b>		
Year	Source and Scale	Comments
1893	USGS / 15 Minute Series	Scale of the map did not allow for a detailed review of the subject property. A northwest to southeast trending railroad was located to the north of the subject property. Immediate site vicinity to the North was labeled as Richland.
1928	USGS / 15 Minute Series	Scale of the map did not allow for a detailed review of the subject property. Immediate site vicinity was labeled as San Marcos. Increased street and residential development within the vicinity of the subject property.
1947/ 1953	ASCS / 1" = 500'	Subject and adjacent properties appeared to be undeveloped land. Barham Drive located to north of the subject property, with some agricultural development beyond.
1948/ 1949	USGS / 7.5 Minute Series	The subject property appeared as undeveloped land. State Route 78 (SR-78) located to the north. Increased development within the vicinity.
1963	ASCS / 1" = 500'	A dirt road appeared originating along Barham Drive and bounding the subject property's western boundary. An orchard appeared to the west of the subject property beyond undeveloped land. SR-78 appeared expanded to the north of the subject property, and increased development within the site vicinity.
1967	USGS / 1" = 500'	No apparent change to the subject property since the 1963 photograph. The adjacent property to the north appeared graded. No other apparent changes since the 1963 photograph were observed within the adjacent property. Increased development within the site vicinity.
1968	USGS / 7.5 Minute Series	Additional development evident in areas within the immediate vicinity of the subject property. SR-78 appeared expanded and the railroad is no longer evident. A trailer park appeared to the northwest and a gravel pit appeared to the southeast of the subject property. Surrounding area to the south labeled as "Escondido". Reduction of land used for agricultural purposes to the north of the subject property. Increased commercial/industrial development to the east of the subject property.
1975	Unidentified 1" = 500'	No apparent change to the subject property since the 1968 photograph. A self storage facility bounded the subject property to the north. A mobile home development appeared to the west beyond the dirt road which bounds the subject property. Increased commercial development within the site vicinity.
1980/ 1985	USGS / NHAP 1" = 500'	No apparent change to the subject property since the 1975 photograph. Land bounding the subject property to the east appeared beyond Meyers Avenue graded. Increased development within the site vicinity.
1983	USGS / 7.5 Minute Series	No apparent changes were noted on the subject property since the 1968 topographic map. A self-storage facility appeared bounding the subject property to the north. Increased development appeared on the surrounding area.
1994	USGS 1" = 500'	No apparent change to the subject property or adjacent property to the north and west since the 1985 photograph. Adjacent property to the south appeared graded, while adjacent property to the east appeared occupied with commercial/light industrial development. Increased development within the site vicinity.
1996	USGS / 7.5 Minute Series	A barn structure appeared near the southeastern boundary of the subject property. Surrounding property to the north, east and west shaded pink, indicating urban expansion.
1996	USGS 1" = 500'	No apparent change to the subject property or adjacent property to the north, east and west since the 1994 photograph. Adjacent property to the south occupied by a commercial structure. Increased development within the site vicinity.

TABLE 1 Summary of Historical Aerial Photograph and Topographic Map Review		
Year	Source and Scale	Comments
2002/ 2004/ 2005/ 2009/ 2010/ 2012/ 2014/ 2016/ 2018/ 2020	USGS / NAIP 1" = 500'	No apparent change to the subject property or adjacent property to the north and west since the 1996 photograph. Additional commercial structures appeared on southern and eastern adjacent properties. Orchard located within the site vicinity to the west no longer appeared active. Increased development within the site vicinity.
2015	USGS / 7.5 Minute Series	Subject property appeared undeveloped. Surrounding property no longer shaded pink. Increased street development within the vicinity of the subject property. With the exception of schools, structures are no longer depicted on map.

ASCS is the Agriculture and Soil Conservation Service. NAIP is the National Agriculture Inspection Program. USGS is the U.S. Geological Survey. NHAP is National High Altitude Photography. No additional pertinent information was noted.

### 3.2.2 City/County Directories

Directory listings associated with the street addresses located adjacent to and surrounding the subject property was obtained from ERIS, an environmental information/database retrieval service. Adjacent and surrounding streets, including Barham Drive and Meyers Avenue were listed in directories from 1970 through 2018, and appeared with a mix of commercial residential occupants. According to the information reviewed, no gas stations, cleaners, or other occupants of potential environmental concern were identified on the subject property, or adjacent properties (within the 2300 Block of Myers). A copy of the City Directory Report is provided in **Appendix C**.

### 3.2.3 Fire Insurance Maps

TA-Group DD researched available Fire Insurance Maps of the subject property. Such maps provide detailed information on site structures, uses, and occupancies and were typically utilized by insurance companies to evaluate potential fire risk. No coverage was available for the subject property. A copy of the Insurance Map report is included in **Appendix C**.

### 3.2.4 City of Escondido Building Department Files

TA-Group DD previously contacted the City of Escondido Building Department to review any existing records related to development of the subject property. According to City staff, no permits were on file for APN 228-312-05-00. Since no development has occurred since that time, we did not revisit the Building Department.

### 3.2.5 Summary of Property History

Based on historical records such as aerial photographs, topographic maps, and previous reports, the subject property has historically consisted of undeveloped land. Adjacent property has predominantly consisted of a mix of residential, commercial and light industrial from as early as 1967 until at least 2020, increasing over time. Property within the site vicinity to the west appeared to be developed with an orchard from approximately 1953 through 1996, after which, the orchard appeared inactive.

### 3.3 Regulatory Database Review

TA-Group DD subcontracted an electronic database report from ERIS®, an environmental information/database retrieval service. Facilities were identified by county, state, or federal agencies that generate, store, or dispose of hazardous materials or which have or have had releases from underground storage tanks, industrial uses, or related sites. A copy of the full ERIS® report is provided in **Appendix D**, along with a description of the individual databases.

TA-Group DD generally evaluates environmental hazard threat based upon 5 main criteria (not necessarily in this order): proximity to the subject site, size of release/potential release, age of potential release, direction of groundwater gradient, and depth to groundwater. Proximity is generally the most important of these factors, as a small release of hazardous substances can have a substantial effect on environmental liability. **Table 2** identifies release sites that meet the screening criteria noted above:

#### 3.3.1 Subject Property

No listings were identified for the subject property.

#### 3.3.2 Adjacent Properties (within 1/8<sup>th</sup> Mile Radius Distance (660 feet))

Listing numbers 1-24 in this search radius. The following meet the screening criteria noted above:

- Listing 14, 24, 30, 37 (**Hebdon Electronics**, also listed as **Hebdon Electronics Site (Former)**, **HD Supply Waterworks LTD WW1730**, **US Filter Distribution**, **National Waterworks Inc.**, and as **Samtech Automotive**) is a LUST site located approximately 0.16-mile to the east and .012-mile to the east, at **665 Opper Street** and **2550 Meyers Avenue**, respectively. In January 1994, an unspecified quantity of 1,4-Dioxane and Trichloroethylene (TCE) was released at the site impacting soil and groundwater. The site is currently listed as under assessment with the contaminate plume reported as defined to the west. Based on the active monitoring of the site by the appropriate regulatory agency, the contaminant plume being defined to the west, and the site's cross-gradient location, this site is not considered to be an environmental concern to the subject property.
- Listing 17, 22 (**Manchester Feeds Inc**, also listed as **Agricultural Installations Inc**, **Alpha Cat Welding**, and as **Bell Milling Co**) is a LUST site located approximately 0.11-mile to the northeast, at **1520 E. Barham Drive**. In February 1986, an unspecified quantity of gasoline was released at the site impacting soil only. The case was granted case closure status on September 22, 1986. Based on distance, media (soil), and location hydrologically cross-gradient, this site is not considered an environmental concern to the subject property.

### 3.3.3 Surrounding Area; 1/8 to 1/4 Miles Radius Distance (660-1,320 feet)

Listing numbers 25-61 in this search radius. The following meet the screening criteria noted above:

- Listing 49 (**J & S Automotive**, also listed as **H and M Four Slide Inc.**, and as **DNM Mobil Phlebotomist**) is a LUST site located approximately 0.19-mile to the east, at **2210 Meyers Avenue**. In August 1989, an unspecified quantity of an unspecified substance was released at the site. The case was granted case closure status on August 7, 2013. Based on distance and location hydrologically cross-gradient, this site is not considered an environmental concern to the subject property.
- Listings 54 (**Pacific Handrail and Fence Co**, also listed as **Schaefer Pacific Railing Systems, Compton Plaster Co Inc.**, and as **Craneworks Southwest Inc.**) is a LUST site located approximately 0.10-mile to the north-northwest, at **1312 Barham Drive**. In November 1995, an unspecified quantity of gasoline was released at the site impacting soil only. The case was granted case closure status on July 21, 1999. Based on distance, media (soil), and location hydrologically down-gradient, this site is not considered an environmental concern to the subject property.
- Listing 56 (**NationsRent, Inc.**, also listed as **Case Power and Equipment, Contractors Equipment, Naumann Hobbs Material Handling**, and as **Hawthorne Rent-It Service**) is a LUST site located approximately 0.22-mile to the east-northeast, at **1600 E. Mission Road**. In July 1991, an unspecified quantity of waste/motor/hydraulic/lubricating oil was released at the site impacting soil only. The case was granted case closure status on July 30, 1993. Based on distance, location hydrographically cross-gradient and media (soil), this site is not considered an environmental concern to the subject property.

### 3.3.4 Surrounding Area; 1/4 to 1/2 Miles Radius Distance (1,320-2,640 feet)

Listing numbers 62-73 in this search radius. The following meet the screening criteria noted above:

- Listing 64 (**Penske Truck**) is a LUST site located approximately 0.27-mile to the east-northeast, at **2130 W. Mission Road**. In August 1991, an unspecified quantity of an unspecified substance was released at the site. The case was granted case closure status on August 28, 1991. Based on distance, regulatory status and location hydrologically cross-gradient, this site is not considered an environmental concern to the subject property.
- Listings 65 (**Texaco Refining and Marketing**) is a LUST site located approximately 0.34-mile to the east-northeast, at **2110 W. Mission Road**. In April 2007, an unspecified quantity of gasoline was released at the site impacting soil and groundwater. Groundwater was monitored at the site for six (6) consecutive quarters beginning in March 2008. All dissolved-phase analytes were historically reported below laboratory detection limits with the exception of Methyl Tertiary Butyl Ether (MTBE) and Total Petroleum Hydrocarbons (TPH). The last sample event reported concentrations of TPH below laboratory detection limits, and concentrations of MTBE ranging from less than 1 parts per billion (PPB) to 3.3 ppb. The residual dissolved-phase contamination was

reported by the consultant as not to pose a risk to human health, nearby sensitive receptors, or the environment. The case was granted case closure status on December 4, 2009. Based on distance and location hydrologically cross-gradient, this site is not considered an environmental concern to the subject property.

- Listings 67 (Citracado Exxon) is a LUST site located approximately 0.38-mile to the east-northeast, at **825 N. Citracado Parkway**. In July 2000, an unspecified quantity of diesel was released at the site impacting soil only. The case was granted case closure status on May 29, 2001. Based on distance, media (soil), and location hydrologically cross-gradient, this site is not considered an environmental concern to the subject property.
- Listings 73 (**Contractors Equipment**, also listed as **HDS Auto Parts & Machine**) is a LUST site located approximately 0.44-mile to the east, at **1960 W. Mission Road**. In February 1999, an unspecified quantity of gasoline was released at the site impacting soil and groundwater. The case was granted case closure status on June 3, 2015. Based on distance, case closure status, and location hydrologically cross-gradient, this site is not considered an environmental concern to the subject property.

### 3.3.5 Surrounding Area; 1/2 to 1.0 Miles Radius Distance (2,640-5,280 feet)

There is one (1) notation associated with Listing number 76 in this search radius; however, the listing does not meet the screening criteria noted above.

### 3.3.6 Orphan / Unplottable Sites

The ERIS database search report does not identify any Orphan/Unplottable sites.

<b>TABLE 2 Database Search ID with Results</b>	<b>No. of Reported Facilities</b>	<b>Search Radius (Miles)</b>
ONE HALF to ONE MILE (.05-1.0) RADIUS	1	0.5-1.0
ONE QUARTER to ONE HALF MILE (0.25-0.5) RADIUS	35	0.25-0.5
ONE EIGHTH TO ONE QUARTER MILE (0.125-0.25) RADIUS	143	0.125-0.25
SUBJECT TO ONE EIGHTH MILE (0.125) Radius	77	0-0.125
SUBJECT SITE	0	SUBJECT

## 3.4 Regulatory Agency Review and Interviews

### 3.4.1 City of Escondido Fire Department

TA-Group DD contacted the City of Escondido Fire Department concerning any permit, inspection, UST, or cleanup information available for the subject property. Personnel from the department indicated that all records regarding hazardous materials and USTs are held with the County Certified Unified Program Agency (CUPA), which is the County of San Diego Department of Environmental Health Hazardous Materials Division (see **Section 3.4.3**).

### 3.4.2 County of San Diego Department of Environmental Health

TA-Group DD contacted the County of San Diego Department of Environmental Health (CSDDEH) concerning any permit, inspection, AST, UST, or cleanup information available for the subject property during a 2020 Phase I. According to an emailed response from the CSDDEH, dated October 12, 2020, no records are on file for the subject property identified as APN 228-312-05-00. As the property has been vacant since that time, we did not submit a new request.

### 3.4.3 State Water Resources Control Board

TA Group DD reviewed the online database GeoTracker <https://geotracker.waterboards.ca.gov/> which provides records on Leaking Underground Storage Tanks (LUSTs) and Spills, Leaks, Investigation and Cleanup (SLIC) sites, which is maintained by the State Water Quality Control Board. The subject property and adjacent property were not listed on any of the GeoTracker databases. Based on the results of our database review and related information, interviews with SWRCB agency officials were not performed.

One nearby site, identified as **Hebdon Electronics Site (Former RG Circuits)** (655 Opper Street, 0.12-mile east), is located cross-gradient from the subject property and reported a release of 1,4 Dioxane, Trichloroethylene (TCE), and other volatile organic compounds (VOCs) to groundwater on January 2, 1994 (SDRWQCB case 2090064). We reviewed the most recent reports and summaries related to the site. Remediation consisting of in-situ oxidation was conducted in December 2010. In 2019 groundwater monitoring and a soil vapor survey were conducted. The report concluded that “no evidence of a significant impact of VOCs in soil gas”; and verified only two low concentrations of solvents in groundwater. Based on absence of significant vapor or groundwater impacts, and the site’s cross-gradient location, the site is not considered to be an environmental concern to the subject property.

### 3.4.4 California Department of Toxic Substances Control

TA-Group DD reviewed the online database EnviroStor, which provides records on: Federal Superfund sites (National Priority List); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites, which are maintained by the California Department of Toxic Substances Control. The subject property and adjacent property were not listed on the database. Based on the results of our database review and related information, interviews with DTSC agency officials were not performed.

### 3.4.5 California Department of Conservation Geologic Energy Management Division

Oil and gas wells were not observed at the subject property during our site reconnaissance. A review of the California Department of Conservation, Geologic Energy Management Division website for oil and gas fields in California and Alaska (CDCGEMD, 2020) did not indicate the presence of oil and gas wells on or adjacent to the subject property (Township 12 South, Range 02 West, Section 18).

### 3.4.6 National Pipeline Mapping System

TA-Group DD reviewed the National Pipeline Mapping System (NPMS, 2020) public viewer website for gas transmission pipelines and hazardous liquid trunk lines on or close to the subject

property. According to the website, no pipelines are located on or adjacent to the subject property (Township 12S, Range 02W, Section 18).

### **3.5 Current Property Owner Questionnaire**

The property owner (and User) representative, Mr. Rodney Bowen of Via West Group, for information regarding the subject property. Mr. Bowen completed a questionnaire dated October 27, 2020. The information provided by Mr. Bowen is documented below. A copy of the property owner questionnaire is included in **Appendix E**.

#### **3.5.1 Past or Present Uses Indicating Environmental Concern**

Mr. Bowen stated that the subject property currently and has historically consisted of vacant land and was not aware of any past or present uses which indicate an environmental concern.

#### **3.5.2 Environmental Liens or Governmental Notification**

Mr. Bowen stated that he was not aware of any environmental liens or governmental notification relating to past or recurrent violations of environmental laws with respect to the subject property.

#### **3.5.3 Presence of Hazardous Substances or Environmental Violations**

Mr. Bowen stated that he was not aware of the presence of hazardous substances or environmental violations associated with the subject property.

#### **3.5.4 Previous Assessments**

Mr. Bowen stated that he was aware of any a 2020 Phase I ESA prepared by TAGDD.

#### **3.5.5 Legal Proceedings**

Mr. Bowen stated that she was not aware of any environmental liens, unresolved notices of violation, or litigation related to a contamination issue at the subject property.

### **3.6 User Provided Information**

Pursuant to ASTM E1527-13, TA-Group DD provided a Phase I ESA User Specific Questionnaire to the “user” (the person on whose behalf the Phase I ESA is being conducted), Mr. Bowen (Owner) also represents the User. The User Specific Information provided is documented in the following sections. A list of the user specific questions (per ASTM E1527-13) with associated responses is included in **Appendix E**.

#### **3.6.1 Environmental Liens or Activity and Use Limitations**

Mr. Bowen did not have knowledge of environmental liens or activity and use limitations (AULs) in association with the subject property. No separate Environmental Lien Search was provided as part of this work product.

### 3.6.2 Specialized Knowledge

Mr. Bowen stated that he has no specialized knowledge or experience related to the subject property or nearby properties (i.e., knowledge of the chemicals or processes used by a type of business).

### 3.6.3 Valuation Reduction for Environmental Issues

Mr. Bowen stated that the purchase price was fair market range.

### 3.6.4 Presence or Likely Presence of Contamination

Mr. Bowen stated that he was not aware of any environmental issues related to the subject property.

### 3.6.5 Other

Mr. Bowen stated that the Phase I ESA was being prepared for lender due diligence.

## 3.7 Previous Assessments

Based on the information provided by the property owner representative, and the Client, previous site investigation activities have been conducted on the subject property. The following section summarizes the information TA-Group DD reviewed.

**EI, Phase I Environmental Site Assessment and Limited Soil Investigation, Integral Partners Funding, LLC, 19.3-Acre Undeveloped Property, APNs 228-312-05-00, -06-00, -09-00 and -10-00, South of Barham Drive and West of Meyers Avenue and Corporate Drive, City of San Marcos and City of Escondido, San Diego County, California 92078/92029, July 14, 2017.**

At the time of the referenced report, the site (of which the subject property was apart) was described as 19.3-acres, identified by APNs: 228-312-05-00, -06-00, -09-00 and -10-00, and owned by ORIX PACIFIC ESCONDIDO, LLC, a Delaware limited liability company, as to APNs 228-312-05-00 and -06-00, and owned by ORIX PACIFIC SAN MARCOS, LLC, a Delaware Limited Liability Company, as to APNs 228-312-09-00 and -10-00. The site was noted as consisting of vacant land with no permanent structures noted on-site.

EI noted that based on historical records, the western portion of the site's southern parcel, identified as APN 228-312-10-00, appeared to be developed with an orchard from approximately 1953 through 1995, after which, the orchard appeared inactive.

Due to the historical agricultural use of the western portion of APN 228-312-10-00, EI performed a limited soil investigation, which included soil matrix sampling, in an effort to identify potential contamination that may impact future redevelopment. Sampling activities conducted on June 28, 2017 included collection of 10 discrete soil samples throughout the site, specifically within the general area of a former orchard (SB1 through SB5), a former shed area (SB6), and within the vicinity of former barn structure (SB7 through SB10). Each of the soil borings were advanced to a depth of approximately 0.5 feet bgs. Soil samples SB1 through SB10 were submitted for laboratory analytical testing of Organochlorine Pesticides (OCPs) by United States Environmental Protection Agency (USEPA) Test Method 8081A, and for total Arsenic and Lead by USEPA Test Method 6010B. The following bulleted items

summarizes the laboratory testing results:

- 4,4'-DDE (DDE) was detected in sample SB4-0.5' at 32 micrograms per kilogram ( $\mu\text{g}/\text{kg}$ ), which is less than the Office of Environmental Health Hazard Assessment (OEHHA) residential screening level of 1,600  $\mu\text{g}/\text{kg}$ . No other soil samples detected DDE above the laboratory reporting limit (i.e., "non-detect").
- *No other Organochlorine Pesticides (e.g., Dieldrin or DDT) was detected above the laboratory reporting limit (i.e., "non-detect").*
- Total Lead was detected in samples SB1-0.5', SB2-0.5', SB5-0.5', SB6-0.5', SB8-0.5' and SB10-0.5' at concentrations ranging between 12 milligrams per kilogram ( $\text{mg}/\text{kg}$ ) in sample SB2-0.5' to 21  $\text{mg}/\text{kg}$  in sample SB6-0.5', which is less than the OEHHA soil screening number for a residential land use scenario of 80  $\text{mg}/\text{kg}$ . No other soil samples detected Lead above the laboratory reporting limit (i.e., "non-detect").
- *No concentrations of Total Arsenic were detected above the laboratory reporting limit (i.e., "non-detect").*

EEl concluded that their assessment revealed no evidence of *known or suspected RECs, Controlled RECs or Historical RECs* in connection with the subject property; however, EEl identified the following De Minimis Conditions associated with the site:

- The low-level concentrations of lead and DDE detected in select soil samples during EEl's *Limited Soil Investigation*, is considered a *de minimis* condition in connection with the site. No further action appears to be warranted as it relates to the low-level detections in site soil.

In addition, EEl provided the following comments:

- EEl observed a groundwater supply well located within the northern portion of the site near Barham Road. If not planned for future use, EEl recommended the well be abandoned according to County and State guidelines, prior to site improvements.

**TAGDD: "Phase I Environmental Site Assessment, 4.94-Acre Undeveloped Property, Assessor's Parcel Number 228-312-05-00, South of Barham Drive and Northwest of Meyers Avenue and Corporate Drive, City of Escondido, San Diego County, California 92029" dated November 9, 2020.**

The referenced Phase I ESA did not find any REC associated with the Subject Property.

### 3.8 Other Environmental Issues

#### 3.8.1 Asbestos-Containing Materials

Asbestos, a natural fiber used in the manufacturing of several different building materials, has been identified as a human carcinogen. Most friable (i.e., easily broken or crushed) Asbestos-Containing Material (ACM) was banned in building materials by 1978. By 1989, most major manufacturers had voluntarily removed non-friable ACM (i.e., flooring, roofing, and mastics/sealants) from the market. These materials, however, were not banned completely.

In October 1995, the Federal Occupational Safety and Health Administration (OSHA) redefined how building materials are classified in regard to asbestos and the also the way these materials are to be handled. Under this ruling, “thermal system insulation and sprayed-on or troweled on or otherwise applied surfacing materials” applied before 1980 are considered presumed Asbestos-Containing Materials (PACM). Other building materials such as “floor or ceiling tiles, siding, roofing, transite panels” (i.e., non-friable) are also considered PACM unless tested.

The subject property is currently undeveloped land. Based on this information, the presence of asbestos-containing materials is not considered likely.

### **3.8.2 Lead-Based Paint**

Lead-Based Paint (LBP) is identified by OSHA, the Environmental Protection Agency (EPA) and the Department Housing and Urban Development Department (HUD) as being a potential health risk to humans, particularly children, based upon its effects to the central nervous system, kidneys, and bloodstream. The risk of Lead-Based Paint has been classified by HUD based upon the age and condition of the painted surface. This classification includes the following:

- maximum risk is from paint applied before 1950;
- a severe risk is present from paint applied before 1960;
- a moderate risk is present from paint applied before 1970;
- a slight risk is present from paint applied before 1977; and
- paint applied after 1977 is not expected to contain lead.

The subject property is currently undeveloped land. Based on this information, the presence of lead-based paint is not considered likely.

### **3.8.3 Radon**

Radon is a radioactive gas which has been identified as a human carcinogen. Radon gas is typically associated with fine-grained rock and soil, and results from the radioactive decay of radium. The U.S. EPA recommends that homeowners in areas with radon screening levels greater than 4 Picocuries per liter (pCi/L) conduct mitigation of radon gas to reduce exposure. Sections 307 and 309 of the Indoor Radon Abatement Act of 1988 (IRAA) directed the U.S. EPA to list and identify areas of the U.S. with the potential for elevated indoor radon levels. U.S. EPA’s Map of Radon Zones (EPA-402-R-93-071) assigns each of the 3,141 counties in the US to one of three zones based on radon potential:

- Zone 1 counties have a predicted average indoor radon screening level greater than 4 pCi/L.
- Zone 2 counties have a predicted average indoor radon screening level between 2 and 4 pCi/L.
- Zone 3 counties have a predicted average indoor radon screening level less than 2 pCi/L.

Based on such factors as indoor radon measurements; geology; aerial radioactivity; and soil permeability, the U.S. EPA has identified the County of San Diego as Zone 3 (i.e., a predicted average indoor radon screening level less than 2 pCi/L). TA-Group DD does not consider radon as a significant environmental concern at this time.

## 4.0 SITE RECONNAISSANCE

### 4.1 Purpose

The purpose of our site reconnaissance was to visually and physically observe the subject property, any onsite structures, and adjoining properties for conditions indicating an existing release, past release, or threatened release of any hazardous materials/substances or petroleum products into structures on the subject property, or into soil and/or groundwater beneath the property. This would include any evidence of contamination, distressed vegetation, petroleum-hydrocarbon surface staining, waste drums, ASTs/USTs, illegal dumping, or improper waste storage/handling. Detailed information is provided in the following text.

### 4.2 Subject Property

On November 16, 2021, TA-Group DD personnel conducted a site reconnaissance to visually observe the subject property and adjoining properties for conditions indicating a potential environmental concern. TA-Group DD was unescorted during the site reconnaissance. Visual conditions present during the site reconnaissance are documented in the Photographic Log (**Appendix F**) and summarized in **Table 3**.

The rectangular-shaped subject property is located roughly 570-feet south of the intersection of Meyers Avenue and Barham Drive, in the City of Escondido, San Diego County, California (**Figure 2**). The subject property is undeveloped and is bounded by a combination of residential and vacant property to the west; and commercial properties north, south, and east (across Meyers Avenue). The subject property encompasses approximately 4.94-acres on one (1) parcel denoted by APN 228-312-05-00.

The Southern end of the subject property is currently undergoing grading, and is fenced separately from the balance of the site. No vegetation is present and heavy equipment is being utilized to remove rock. We waled the Southern property line and observed South, fenced end, then returned to the Southeast corner of the Subject. The balance of the property is fenced at the Northern and Western property lines.

TA-Group DD then entered the balance of the Subject Property from the unfenced Western side. A portion of the Southern border is fenced with concrete block; a portion of the Western boundary is fenced with barbed wire; and the Northern boundary is fenced with chain-link. No above-grade utilities are present.

TA-Group DD walked the subject property in a clockwise fashion, walking the perimeter and walking transects as needed to observe site features. The property slopes to the north and is relatively level with the exception of several previously excavated and vegetated depressions. Small amounts of trash and dumping was noted at several places throughout the subject property, including what appeared to be a small quantity of concrete/ash dumped within the property's northeast corner. The subject property is covered with low vegetation. With the exception of small amounts of trash as noted, the subject property is relatively free of trash and debris.

Utilities noted within the sidewalk easement along Meyers Avenue include water/fire hydrants; a gas stub (marked), and electrical.

No evidence of contamination, distressed vegetation, petroleum-hydrocarbon surface staining, waste drums, USTs, ASTs, illegal dumping, or improper waste storage/handling was noted during our site reconnaissance.

TABLE 3 - Summary of Site Reconnaissance		
Item	Concerns	Comments
General Housekeeping	No	Minor amounts of common trash were observed scattered throughout the subject property. No concerns observed.
Surface Spills	No	No concerns observed.
Stained Surfaces	No	No concerns observed.
Fill Materials	No	No concerns observed.
Pits/Ponds/Lagoons	No	No concerns observed.
Surface Impoundments	No	No concerns observed.
ASTs/USTs	No	No concerns observed.
Distressed Vegetation	No	No concerns observed.
Wetlands	No	No concerns observed.
Electrical Substations	No	No concerns observed.
Areas of Dumping	No	A small quantity of what appeared to be concrete/ash was noted within the northeastern corner of the subject property. Based on the quantity and nature of the material, it does not appear to represent an environmental concern to the subject property. No concerns observed.
Transformers	No	No concerns observed.
Waste/Scrap Storage	No	No concerns observed.
Chemical Use/Storage	No	No concerns observed.

#### 4.3 Adjacent Properties

TA-Group DD conducted a visual and auto reconnaissance of the adjoining commercial development and drove the immediate area to observe the potential for offsite impacts that may affect the subject property. These would include evidence of chemical storage or usage, surface staining or leakage, distressed vegetation, or evidence of illegal dumping.

The subject property is located in a mixed-use area consisting of residential and commercial development. To the north, the subject property is bound by a self-storage lot, followed by Barham Drive, with SR-78 beyond. To the west, the subject property is bound by a new residential development currently being constructed, as well as a mobile home residential development. To the east, the subject property is bound by Meyers Avenue, followed by commercial development, and to the south, the subject property is bound by commercial development.

Adjacent properties were not identified as having environmental related issues on any of the databases researched, and are not considered as an environmental concern at this time. No service stations, dry cleaners, were identified in the immediate vicinity of the subject property.

#### 5.0 VAPOR ENCROACHMENT SCREEN

ASTM Standard E2600-15 Standard Guide for Vapor Encroachment Screening (VES) on Property Involved in Real Estate Transactions was used as guidance for conducting a VES for the subject property. The

purpose of the screening is to determine whether a Vapor Encroachment Condition (VEC) exists from chemicals of concern (COC) that may migrate as vapors onto a property because of contaminated soil and groundwater on or near the subject property. The screening involves a two-tiered approach to assessing VEC risk as described herein. The VES process includes a review of site conditions (e.g., aerial photographs, city directories, and environmental database information), which is information typically collected during a Phase I ESA, user provided information, and in some instances the use of a third-party vapor encroachment application. The following sections describe the VES performed on the property.

### 5.1 Site Conditions

The elevation of the subject property ranges from approximately 812 feet amsl at the southwestern portions down to roughly 741 feet above mean sea level (amsl) within the southwestern region down to roughly 700 feet amsl within the northeastern region of the property. Based on overall topography, the subject property is generally of moderate relief, with surface drainage trending towards the northeast (USGS, 2015).

Soils in the vicinity of the subject property has been identified by the USDA-NRCS online Web Soil Survey database a mix of loams of the Vista Series and Fallbrook Series, ranging from 2 to 15 percent slopes (USDA, 2021).

The DWR-WDL identified the nearest water well as State Well No. 12S02W09R002S, located approximately 2.58-miles east-northeast of the subject property, which last reported a depth to water of 7.96-feet bgs on June 15, 1987 (WDL, 2020).

Additional data regarding groundwater was obtained from the SWRCB, online GeoTracker website for the nearest site with available data; the **Former Hebdon Electronics Site**, located at 655 Opper Street, approximately 0.11 mile east of the subject property. TA-Group DD reviewed a Groundwater Monitoring Report for an event conducted at the site between May 31, 2016 and June 6, 2016 by Compliance Monitoring Services. Reported groundwater depths ranged from approximately 3.28 feet BTOC to 14.30 feet BTOC. Data indicated that local groundwater flow direction was reported towards the north-northwest.

### 5.2 User Provided Information

To assist TA-Group DD in the completion of the VES, Mr. Rodney Boden of Via West Group, LLC completed a Vapor Encroachment Screen - User Questionnaire (**Appendix E**). The questionnaire provided basic information regarding the use, condition, and proposed development of the subject property.

According to Mr. Bowen, no historical environmental issues are known regarding the subject property. Natural gas and electric service will be utilized for a planned slab-on-grade development. No suspect or reported environmental odors/complaints were noted. The type of development was not identified.

### 5.3 Tier 1 Screening – Search Distance Test/Chemicals of Concern

A Tier 1 Screening includes the search distance test that involves a review of the regulatory database report and available historical records obtained during the Phase I ESA process to decide if any known or suspect potentially contaminated properties exist within the Area of Concern (AOC). High risk sites are typically current and former gas stations, former and current dry cleaners, manufactured gas plants, and industrial sites (Brownfields). The AOC is defined as any up-gradient sites within the ASTM E1527-13

standard search distances and any cross or down gradient sites within 1/3 mile (1745-feet) \*for solvents and petroleum products. If the contamination at the known or potentially contaminated sites within the AOC consists of Chemicals of Concern (COCs), then a potential Vapor Encroachment Condition (pVEC) exists, and a Tier 2 Screening evaluation is recommended. If no known or potentially contaminated sites with COCs exist within the AOC, no further inquiry is necessary.

Based on TA-Group DD's Tier 1 Screening evaluation, the following site was identified within the AOC that was considered to pose a pVEC at the subject property. A summary of the site is provided below.

1. **Hebdon Electronics**, also listed as **Hebdon Electronics Site (Former), HD Supply Waterworks LTD WW1730, US Filter Distribution, National Waterworks Inc.**, and as **Samtech Automotive** (665 Opper Street and 2550 Meyers Avenue, 0.10-mile to the east and .012-mile to the east, respectively), an unspecified quantity of 1,4-Dioxane and TCE was released at the site in January 1994, impacting soil and groundwater. Residual impacts remain beneath the site.
2. **Pacific Handrail and Fence Co**, also listed as **Schaefer Pacific Railing Systems, Compton Plaster Co Inc.**, and as **Craneworks Southwest Inc.** (1312 Barham Drive, 0.10-mile to the north-northeast), an unspecified quantity of gasoline was at the site in November 1995, impacting soil only. Residual soil remains beneath the site.
3. **Manchester Feeds Inc**, also listed as **Agricultural Installations Inc, Alpha Cat Welding**, and as **Bell Milling Co.**, (1520 E. Barham Drive, 0.11-mile to the northeast), an unspecified quantity of gasoline was released at the site in February 1986, impacting soil only. Residual soil remains beneath the site.
4. **J & S Automotive**, also listed as **H and M Four Slide Inc.**, and as **DNM Mobil Phlebotomist** (2210 Meyers Avenue, 0.19-mile to the east), an unspecified quantity of an unspecified substance was released at the site in August 1989. Residual impacts remain beneath the site.
5. **NationsRent, Inc.**, also listed as **Case Power and Equipment, Contractors Equipment, Naumann Hobbs Material Handling**, and as **Hawthorne Rent-It Service** (1600 E. Mission Road, 0.22-mile to the east-northeast), an unspecified quantity of waste/motor/hydraulic/lubricating oil was released at the site in July 1991, impacting soil only. Residual soil remains beneath the site.
6. **Penske Truck** (2130 W. Mission Road, 0.27-mile to the east-northeast), an unspecified quantity of an unspecified substance was released at the site in August 1991. Residual impacts remain beneath the site.

#### 5.4 Tier 2 Screening – Plume Test

Based on the results of our Tier 1 Screening evaluation, a Tier 2 Screening, or Plume Test was conducted. The Plume Test assesses whether or not documented soil and groundwater contamination is close enough to the subject property to result in a VEC. There are two parts to the plume test:

1. Critical Distance Determination - Determine the distance from the subject property to edge of plume in any direction (vertical, horizontal, lateral).
2. VEC exists if a plume of volatile organic compounds (VOCs), semi-volatile organic compounds (S-VOCs,) or Volatile Inorganic Compounds or free-phase petroleum product accumulating above

the water table is located within 100 feet of the subject property, or if a plume of dissolved volatile petroleum hydrocarbons is located within 30-feet of the property.

TA-Group DD reviewed existing non-invasive data for the six (6) sites identified within Section 5.3 (i.e., the AOC). A detailed review of the data was provided within previous sections of this report (i.e. Section 3.3.2 Adjacent Properties and Sections 3.3.3 and 3.3.4 Surrounding Area).

## 5.5 Findings

Based on the results of the VES, TA-Group DD concluded that a VEC can be ruled out for the aforementioned listings, based on: 1) the sites' cross or down-gradient location as it relates to groundwater flow direction; and 2) the distance from the contaminated soil and/or groundwater to the subject property is greater than the critical distance (for chemicals of concern) of 100 feet.

## 6.0 DATA GAPS AND DEVIATIONS FROM ASTM PRACTICES

Section 3.2.21 (ASTM E1527-13) defines a data gap as "a lack or inability to obtain information required by the practice despite good faith effort of the environmental professional to gather such information."

### 6.1 Historical Data Gaps

No historical data gaps were identified during our research efforts.

### 6.2 Regulatory Data Gaps

No regulatory data gaps were identified during our research efforts.

### 6.3 Onsite Data Gaps

No onsite data gaps were identified during our research efforts.

### 6.4 Deviations from ASTM Practices

Section 12.10 (ASTM E1527-13), states that all deletions and deviations from this practice shall be listed individually and in detail, including client-imposed constraints, and all additions should be listed. TA-Group DD believes that there are no exceptions to, or deletions and deviations from, the ASTM E1527-13 Guidelines.

## 7.0 CONCLUSIONS AND RECOMMENDATIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM E1527-13 of APN 228-312-05-00, the *subject property*. Any exceptions to, or deletions from, this practice are described in Section 7.0 of this report.

Based on the information obtained in this ESA, TA-Group DD has the following conclusions and recommendations:

- *Known or suspected RECs* – are defined by the ASTM E1527-13 as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

This assessment has revealed no evidence of *known or suspected RECs* in connection with the subject property.

- *Controlled RECs (CRECs)* – are defined by the ASTM E1527-13 as a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (e.g., as evidenced by the issuance of a NFA letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

This assessment has revealed no evidence of *CRECs* in connection with the subject property.

- *Historical RECs (HRECs)* – are defined by the ASTM E1527-13 as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted residential use criteria established by a regulatory authority, without subjecting the property to any required controls (e.g., property use restrictions, AULs, institutional controls, or engineering controls).

This assessment has revealed no evidence of *HREC's* in connection with the subject property.

- *De Minimis Conditions* – include environmental concerns identified which may warrant discussion but do not qualify as RECs, as defined by the ASTM E1527-13.

Small quantities of trash and concrete/soil are located near the Northeast end of the property which are considered *de minimis* conditions.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on **11/23/2021 at 11:58 AM** and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

# OWNER'S POLICY OF TITLE INSURANCE

ISSUED BY

## *First American Title Insurance Company*

Any notice of claim and any other notice or statement in writing required to be given to the Company under this policy must be given to the Company at the address shown in Section 18 of the Conditions.

### COVERED RISKS

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B AND THE CONDITIONS, FIRST AMERICAN TITLE INSURANCE COMPANY, a Nebraska corporation (the "Company") insures, as of Date of Policy and, to the extent stated in Covered Risks 9 and 10, after Date of Policy, against loss or damage, not exceeding the Amount of Insurance, sustained or incurred by the Insured by reason of:

1. Title being vested other than as stated in Schedule A.
2. Any defect in or lien or encumbrance on the Title. This Covered Risk includes but is not limited to insurance against loss from
  - (a) A defect in the Title caused by
    - (i) forgery, fraud, undue influence, duress, incompetency, incapacity, or impersonation;
    - (ii) failure of any person or Entity to have authorized a transfer or conveyance;
    - (iii) a document affecting Title not properly created, executed, witnessed, sealed, acknowledged, notarized, or delivered;
    - (iv) failure to perform those acts necessary to create a document by electronic means authorized by law;
    - (v) a document executed under a falsified, expired, or otherwise invalid power of attorney;
    - (vi) a document not properly filed, recorded, or indexed in the Public Records including failure to perform those acts by electronic means authorized by law; or
    - (vii) a defective judicial or administrative proceeding.
  - (b) The lien of real estate taxes or assessments imposed on the Title by a governmental authority due or payable, but unpaid.
  - (c) Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land. The term "encroachment" includes encroachments of existing improvements located on the Land onto adjoining land, and encroachments onto the Land of existing improvements located on adjoining land.
3. Unmarketable Title.
4. No right of access to and from the Land.
5. The violation or enforcement of any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (a) the occupancy, use, or enjoyment of the Land;
  - (b) the character, dimensions, or location of any improvement erected on the Land;
  - (c) the subdivision of land; or
  - (d) environmental protectionif a notice, describing any part of the Land, is recorded in the Public Records setting forth the violation or intention to enforce, but only to the extent of the violation or enforcement referred to in that notice.
6. An enforcement action based on the exercise of a governmental

police power not covered by Covered Risk 5 if a notice of the enforcement action, describing any part of the Land, is recorded in the Public Records, but only to the extent of the enforcement referred to in that notice.

7. The exercise of the rights of eminent domain if a notice of the exercise, describing any part of the Land, is recorded in the Public Records.
8. Any taking by a governmental body that has occurred and is binding on the rights of a purchaser for value without Knowledge.
9. Title being vested other than as stated in Schedule A or being defective
  - (a) as a result of the avoidance in whole or in part, or from a court order providing an alternative remedy, of a transfer of all or any part of the title to or any interest in the Land occurring prior to the transaction vesting Title as shown in Schedule A because that prior transfer constituted a fraudulent or preferential transfer under federal bankruptcy, state insolvency, or similar **creditors' rights laws**; or
  - (b) because the instrument of transfer vesting Title as shown in Schedule A constitutes a preferential transfer under federal **bankruptcy, state insolvency, or similar creditors' rights laws** by reason of the failure of its recording in the Public Records
    - (i) to be timely, or
    - (ii) to impart notice of its existence to a purchaser for value or to a judgment or lien creditor.
10. Any defect in or lien or encumbrance on the Title or other matter included in Covered Risks 1 through 9 that has been created or attached or has been filed or recorded in the Public Records subsequent to Date of Policy and prior to the recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The Company will also pay the costs, attorneys' fees, and expenses incurred in defense of any matter insured against by this policy, but only to the extent provided in the Conditions.

### **First American Title Insurance Company**

Dennis J. Gilmore, President

Greg L. Smith, Secretary

#### EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection;or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
  - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
  - (c) resulting in no loss or damage to the Insured Claimant;
  - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risks 9 and 10); or
  - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
  - (a) a fraudulent conveyance or fraudulent transfer; or
  - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

#### CONDITIONS

##### 1. DEFINITION OF TERMS

The following terms when used in this policy mean:

- (a) **"Amount of Insurance":** The amount stated in Schedule A, as may be increased or decreased by endorsement to this policy, increased by Section 8(b), or decreased by Sections 10 and 11 of these Conditions.
- (b) **"Date of Policy":** The date designated as "Date of Policy" in Schedule A.
- (c) **"Entity":** A corporation, partnership, trust, limited liability company, or other similar legal entity.
- (d) **"Insured":** The Insured named in Schedule A.
  - (i) The term "Insured" also includes
    - (A) successors to the Title of the Insured by operation of law as distinguished from purchase, including heirs, devisees, survivors, personal representatives, or next of kin;
    - (B) successors to an Insured by dissolution, merger, consolidation, distribution, or reorganization;
    - (C) successors to an Insured by its conversion to another kind of Entity;
    - (D) a grantee of an Insured under a deed delivered without payment of actual valuable consideration conveying the Title
      - (1) if the stock, shares, memberships, or other equity interests of the grantee are wholly-owned by the named Insured,
      - (2) if the grantee wholly owns the named Insured,
      - (3) if the grantee is wholly-owned by an affiliated Entity of the named Insured, provided the affiliated Entity and the named Insured are both wholly-owned by the same person or Entity, or
      - (4) if the grantee is a trustee or beneficiary of a trust created by a written instrument established by the Insured named in Schedule A for estate planning purposes.

- (ii) With regard to (A), (B), (C), and (D) reserving, however, all rights and defenses as to any successor that the Company would have had against any predecessor Insured.
- (e) "Insured Claimant": An Insured claiming loss or damage.
- (f) "Knowledge" or "Known": Actual knowledge, not constructive knowledge or notice that may be imputed to an Insured by reason of the Public Records or any other records that impart constructive notice of matters affecting the Title.
- (g) "Land": The land described in Schedule A, and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is insured by this policy.
- (h) "Mortgage": Mortgage, deed of trust, trust deed, or other security instrument, including one evidenced by electronic means authorized by law.
- (i) "Public Records": Records established under state statutes at Date of Policy for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge. With respect to Covered Risk 5(d), "Public Records" shall also include environmental protection liens filed in the records of the clerk of the United States District Court for the district where the Land is located.
- (j) **"Title":** The estate or interest described in Schedule A.
- (k) **"Unmarketable Title":** Title affected by an alleged or apparent matter that would permit a prospective purchaser or lessee of the Title or lender on the Title to be released from the obligation to purchase, lease, or lend if there is a contractual condition requiring the delivery of marketable title.

##### 2. CONTINUATION OF INSURANCE

The coverage of this policy shall continue in force as of Date of Policy in favor of an Insured, but only so long as the Insured retains an estate or interest in the Land, or holds an obligation secured by a purchase money Mortgage given by a purchaser from the Insured, or only so long as the Insured shall have liability by reason of warranties in any transfer or conveyance of the Title. This policy shall not continue in force in favor of any purchaser from the Insured of either (i) an estate or interest in the Land, or (ii) an obligation secured by a purchase money Mortgage given to the Insured.

##### 3. NOTICE OF CLAIM TO BE GIVEN BY INSURED CLAIMANT

The Insured shall notify the Company promptly in writing (i) in case of any litigation as set forth in Section 5(a) of these Conditions, (ii) in case Knowledge shall come to an Insured hereunder of any claim of title or interest that is adverse to the Title, as insured, and that might cause loss or damage for which the Company may be liable by virtue of this policy, or (iii) if the Title, as insured, is rejected as Unmarketable Title. If the Company is prejudiced by the failure of the Insured Claimant to provide prompt notice, the Company's liability to the Insured Claimant under the policy shall be reduced to the extent of the prejudice.

##### 4. PROOF OF LOSS

In the event the Company is unable to determine the amount of loss or damage, the Company may, at its option, require as a condition of payment that the Insured Claimant furnish a signed proof of loss. The proof of loss must describe the defect, lien, encumbrance, or other matter insured against by this policy that constitutes the basis of loss or damage and shall state, to the extent possible, the basis of calculating the amount of the loss or damage.

##### 5. DEFENSE AND PROSECUTION OF ACTIONS

- (a) Upon written request by the Insured, and subject to the options contained in Section 7 of these Conditions, the Company, at its own cost and without unreasonable delay, shall provide for the defense of an Insured in litigation in which any third party asserts a claim covered by this policy adverse to the Insured. This obligation is limited to only those stated causes of action alleging matters insured against by this policy. The Company shall have the right to select counsel of its choice (subject to the right of the Insured to object for reasonable cause) to represent the Insured as to those stated causes of action. It shall not be liable for and will not pay the fees of any other counsel. The Company will not pay any fees, costs, or expenses incurred by the Insured in the defense of those causes of action that allege matters not insured against by this policy.
- (b) The Company shall have the right, in addition to the options contained in

Section 7 of these Conditions, at its own cost, to institute and prosecute any action or proceeding or to do any other act that in its opinion may be necessary or desirable to establish the Title, as insured, or to prevent or reduce loss or damage to the Insured. The Company may take any appropriate action under the terms of this policy, whether or not it shall be liable to the Insured. The exercise of these rights shall not be an admission of liability or waiver of any provision of this policy. If the Company exercises its rights under this subsection, it must do so diligently.

- (c) Whenever the Company brings an action or asserts a defense as required or permitted by this policy, the Company may pursue the litigation to a final determination by a court of competent jurisdiction, and it expressly reserves the right, in its sole discretion, to appeal any adverse judgment or order.

#### 6. DUTY OF INSURED CLAIMANT TO COOPERATE

- (a) In all cases where this policy permits or requires the Company to prosecute or provide for the defense of any action or proceeding and any appeals, the Insured shall secure to the Company the right to so prosecute or provide defense in the action or proceeding, including the right to use, at its option, the name of the Insured for this purpose. Whenever requested by the Company, the Insured, at the Company's expense, shall give the Company all reasonable aid (i) in securing evidence, obtaining witnesses, prosecuting or defending the action or proceeding, or effecting settlement, and (ii) in any other lawful act that in the opinion of the Company may be necessary or desirable to establish the Title or any other matter as insured. If the Company is prejudiced by the failure of the Insured to furnish the required cooperation, the Company's obligations to the Insured under the policy shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation, with regard to the matter or matters requiring such cooperation.
- (b) The Company may reasonably require the Insured Claimant to submit to examination under oath by any authorized representative of the Company and to produce for examination, inspection, and copying, at such reasonable times and places as may be designated by the authorized representative of the Company, all records, in whatever medium maintained, including books, ledgers, checks, memoranda, correspondence, reports, e-mails, disks, tapes, and videos whether bearing a date before or after Date of Policy, that reasonably pertain to the loss or damage. Further, if requested by any authorized representative of the Company, the Insured Claimant shall grant its permission, in writing, for any authorized representative of the Company to examine, inspect, and copy all of these records in the custody or control of a third party that reasonably pertain to the loss or damage. All information designated as confidential by the Insured Claimant provided to the Company pursuant to this Section shall not be disclosed to others unless, in the reasonable judgment of the Company, it is necessary in the administration of the claim. Failure of the Insured Claimant to submit for examination under oath, produce any reasonably requested information, or grant permission to secure reasonably necessary information from third parties as required in this subsection, unless prohibited by law or governmental regulation, shall terminate any liability of the Company under this policy as to that claim.

#### 7. OPTIONS TO PAY OR OTHERWISE SETTLE CLAIMS; TERMINATION OF LIABILITY

In case of a claim under this policy, the Company shall have the following additional options:

- (a) To Pay or Tender Payment of the Amount of Insurance.  
To pay or tender payment of the Amount of Insurance under this policy together with any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment or tender of payment and that the Company is obligated to pay. Upon the exercise by the Company of this option, all liability and obligations of the Company to the Insured under this policy, other than to make the payment required in this subsection, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.
- (b) To Pay or Otherwise Settle With Parties Other Than the Insured or With the Insured Claimant.
- (i) To pay or otherwise settle with other parties for or in the name of an Insured Claimant any claim insured against under this policy. In addition, the Company will pay any costs, attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay; or
- (ii) To pay or otherwise settle with the Insured Claimant the loss or damage provided for under this policy, together with any costs,

attorneys' fees, and expenses incurred by the Insured Claimant that were authorized by the Company up to the time of payment and that the Company is obligated to pay.

Upon the exercise by the Company of either of the options provided for in subsections (b)(i) or (ii), the Company's obligations to the Insured under this policy for the claimed loss or damage, other than the payments required to be made, shall terminate, including any liability or obligation to defend, prosecute, or continue any litigation.

#### 8. DETERMINATION AND EXTENT OF LIABILITY

This policy is a contract of indemnity against actual monetary loss or damage sustained or incurred by the Insured Claimant who has suffered loss or damage by reason of matters insured against by this policy.

- (a) The extent of liability of the Company for loss or damage under this policy shall not exceed the lesser of
- (i) the Amount of Insurance; or
- (ii) the difference between the value of the Title as insured and the value of the Title subject to the risk insured against by this policy.
- (b) If the Company pursues its rights under Section 5 of these Conditions and is unsuccessful in establishing the Title, as insured,
- (i) the Amount of Insurance shall be increased by 10%, and
- (ii) the Insured Claimant shall have the right to have the loss or damage determined either as of the date the claim was made by the Insured Claimant or as of the date it is settled and paid.
- (c) In addition to the extent of liability under (a) and (b), the Company will also pay those costs, attorneys' fees, and expenses incurred in accordance with Sections 5 and 7 of these Conditions.

#### 9. LIMITATION OF LIABILITY

- (a) If the Company establishes the Title, or removes the alleged defect, lien, or encumbrance, or cures the lack of a right of access to or from the Land, or cures the claim of Unmarketable Title, all as insured, in a reasonably diligent manner by any method, including litigation and the completion of any appeals, it shall have fully performed its obligations with respect to that matter and shall not be liable for any loss or damage caused to the Insured.
- (b) In the event of any litigation, including litigation by the Company or with the Company's consent, the Company shall have no liability for loss or damage until there has been a final determination by a court of competent jurisdiction, and disposition of all appeals, adverse to the Title, as insured.
- (c) The Company shall not be liable for loss or damage to the Insured for liability voluntarily assumed by the Insured in settling any claim or suit without the prior written consent of the Company.

#### 10. REDUCTION OF INSURANCE; REDUCTION OR TERMINATION OF LIABILITY

All payments under this policy, except payments made for costs, attorneys' fees, and expenses, shall reduce the Amount of Insurance by the amount of the payment.

#### 11. LIABILITY NONCUMULATIVE

The Amount of Insurance shall be reduced by any amount the Company pays under any policy insuring a Mortgage to which exception is taken in Schedule B or to which the Insured has agreed, assumed, or taken subject, or which is executed by an Insured after Date of Policy and which is a charge or lien on the Title, and the amount so paid shall be deemed a payment to the Insured under this policy.

#### 12. PAYMENT OF LOSS

When liability and the extent of loss or damage have been definitely fixed in accordance with these Conditions, the payment shall be made within 30 days.

#### 13. RIGHTS OF RECOVERY UPON PAYMENT OR SETTLEMENT

- (a) Whenever the Company shall have settled and paid a claim under this policy, it shall be subrogated and entitled to the rights of the Insured Claimant in the Title and all other rights and remedies in respect to the claim that the Insured Claimant has against any person or property, to the extent of the amount of any loss, costs, attorneys' fees, and expenses paid by the Company. If requested by the Company, the Insured Claimant shall execute documents to evidence the transfer to the Company of these rights and remedies. The Insured Claimant shall permit the Company to sue, compromise, or settle in the name of the Insured Claimant and to use the name of the Insured Claimant in any transaction or litigation involving these rights and remedies.

If a payment on account of a claim does not fully cover the loss of the Insured Claimant, the Company shall defer the exercise of its right to recover until after the Insured Claimant shall have recovered its loss.

- (b) **The Company's right of subrogation includes the rights of the** Insured to indemnities, guaranties, other policies of insurance, or bonds, notwithstanding any terms or conditions contained in those instruments that address subrogation rights.

- (d) Each endorsement to this policy issued at any time is made a part of this policy and is subject to all of its terms and provisions. Except as the endorsement expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsement, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance.

#### 14. ARBITRATION

Either the Company or the Insured may demand that the claim or controversy shall be submitted to arbitration pursuant to the Title Insurance Arbitration Rules of **the American Land Title Association ("Rules")**. Except as provided in the Rules, there shall be no joinder or consolidation with claims or controversies of other persons. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the Insured arising out of or relating to this policy, any service in connection with its issuance or the breach of a policy provision, or to any other controversy or claim arising out of the transaction giving rise to this policy. All arbitrable matters when the Amount of Insurance is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Insured. All arbitrable matters when the Amount of Insurance is in excess of \$2,000,000 shall be arbitrated only when agreed to by both the Company and the Insured. Arbitration pursuant to this policy and under the Rules shall be binding upon the parties. Judgment upon the award rendered by the Arbitrator(s) may be entered in any court of competent jurisdiction.

#### 15. LIABILITY LIMITED TO THIS POLICY; POLICY ENTIRE CONTRACT

- (a) This policy together with all endorsements, if any, attached to it by the Company is the entire policy and contract between the Insured and the Company. In interpreting any provision of this policy, this policy shall be construed as a whole.
- (b) Any claim of loss or damage that arises out of the status of the Title or by any action asserting such claim shall be restricted to this policy.
- (c) Any amendment of or endorsement to this policy must be in writing and authenticated by an authorized person, or expressly incorporated by Schedule A of this policy.

#### 16. SEVERABILITY

In the event any provision of this policy, in whole or in part, is held invalid or unenforceable under applicable law, the policy shall be deemed not to include that provision or such part held to be invalid, but all other provisions shall remain in full force and effect.

#### 17. CHOICE OF LAW; FORUM

- (a) Choice of Law: The Insured acknowledges the Company has underwritten the risks covered by this policy and determined the premium charged therefore in reliance upon the law affecting interests in real property and applicable to the interpretation, rights, remedies, or enforcement of policies of title insurance of the jurisdiction where the Land is located. Therefore, the court or an arbitrator shall apply the law of the jurisdiction where the Land is located to determine the validity of claims against the Title that are adverse to the Insured and to interpret and enforce the terms of this policy. In neither case shall the court or arbitrator apply its conflicts of law principles to determine the applicable law.
- (b) Choice of Forum: Any litigation or other proceeding brought by the Insured against the Company must be filed only in a state or federal court within the United States of America or its territories having appropriate jurisdiction.

#### 18. NOTICES, WHERE SENT

Any notice of claim and any other notice or statement in writing required to be given to the Company under this policy must be given to the Company at 1 First American Way, Santa Ana, CA 92707, Attn: Claims Department.

---

## ***POLICY OF TITLE INSURANCE***

## SCHEDULE A

### *First American Title Insurance Company*

Name and Address of the issuing Title Insurance Company:

First American Title Insurance Company  
2425 E. Camelback Road, Suite 300  
Phoenix, AZ 85016

File No.: NCS-1094366-PHX1

Policy No.: 1094366

Address Reference: 2351 Meyers Avenue, Escondido, CA 92029

Amount of Insurance: \$6,000,000.00

Date of Policy: date of recording at time of recording

1. Name of Insured:

VWP Acquisitions, LLC

2. The estate or interest in the Land that is insured by this policy is:

A Fee.

3. Title is vested in:

VWP Acquisitions, LLC

4. The Land referred to in this policy is described as follows:

Real property in the City of Escondido, County of San Diego, State of California, described as follows:

PARCEL 3, OF PARCEL MAP NO. 9838 ESCONDIDO MAP P-79-37, IN THE CITY OF ESCONDIDO,  
COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, FILED IN THE OFFICE OF THE COUNTY  
RECORDER OF SAN DIEGO COUNTY ON MARCH 26, 1980, AS FILE NO. 80-103462 OF OFFICIAL  
RECORDS

NOTICE: This is a pro-forma policy furnished to or on behalf of the party to be insured. It neither reflects the present status of title, nor is it intended to be a commitment to insure. The inclusion of endorsements as part of the pro-forma policy in no way evidences the willingness of the Company to provide any affirmative coverage shown therein.

There are Requirements which must be met before a final policy can be issued in the same form as this pro-forma policy. A commitment to insure setting forth these requirements should be obtained from the Company.

## SCHEDULE B

File No.: NCS-1094366-PHX1

Policy No.: 1094366

### EXCEPTIONS FROM COVERAGE

This Policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees, or expenses that arise by reason of:

1. General and special taxes and assessments for the fiscal year 2021-2022.
2. The lien of supplemental taxes, if any, assessed pursuant to Chapter 3.5 commencing with Section 75 of the California Revenue and Taxation Code, which arise as a result of a change in ownership or commencement of construction occurring on or after the Date of Policy.
3. Covenants, conditions and restrictions in the document recorded April 01, 1958 as Instrument No. 51554 in Book 7018, Page 147 of Official Records, which provide that no used pre-fabricated building may be moved onto subject property.
4. An easement shown or dedicated on the map filed or recorded March 26, 1980 as Parcel Map No. 9838 Escondido Map P-79-37 of Parcel Maps  
For: Tree planting and incidental purposes.
5. An easement for public utility and incidental purposes, recorded December 02, 1982 as Instrument No. 82-370549 of Official Records.

In Favor of: City of Escondido, a municipal corporation  
Affects: as described therein

6. Easements, Covenants and Conditions contained in the deed from The Sunrise Gardens Project Owner, LLC, a Delaware limited liability company, as Grantor, to 2351 Meyers Avenue, LLC, a California limited liability company, as Grantee, recorded December 18, 2020 Instrument No. 2020-0817959 of Official Records. Reference being made to the document for full particulars.
7. The Terms, Provisions and Easement(s) contained in the document entitled "Entry and Driveway Easement Agreement" recorded December 18, 2020 as Instrument No. 2020-0817960 of Official Records.

Document(s) declaring modifications thereof recorded May 12, 2021 as Instrument No. 2021-0363695 of Official Records.

8. Any facts, rights, interests or claims which would be disclosed by a correct ALTA/NSPS survey.
9. Water rights, claims or title to water, whether or not shown by the Public Records.

**First American**

POLICY AUTHENTICATION ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

When the policy is issued by the Company with a policy number and Date of Policy, the Company will not deny liability under the policy or any endorsements issued with the policy solely on the grounds that the policy or endorsements were issued electronically or lack signatures in accordance with the Conditions.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

COMMERCIAL ENVIRONMENTAL  
PROTECTION LIEN ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by the Insured by reason of an environmental protection lien that, at Date of Policy, is recorded in the Public Records or filed in the records of the Clerk of the United States District Court for the district in which the Land is located, unless the environmental protection lien is set forth as an exception in Schedule B.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

COVENANTS, CONDITIONS AND RESTRICTIONS - UNIMPROVED LAND -  
OWNER'S POLICY ENDORSEMENT

Issued by  
*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

1. The insurance provided by this endorsement is subject to the exclusions in Section 4 of this endorsement; and the Exclusions from Coverage, the Exceptions from Coverage contained in Schedule B, and the Conditions in the policy.
2. For the purposes of this endorsement only, "Covenant" means a covenant, condition, limitation or restriction in a document or instrument in effect at Date of Policy.
3. The Company insures against loss or damage sustained by the Insured by reason of:
  - a. A violation on the Land at Date of Policy of an enforceable Covenant, unless an exception in Schedule B of the policy identifies the violation; or
  - b. A notice of a violation, recorded in the Public Records at Date of Policy, of an enforceable Covenant relating to environmental protection describing any part of the Land and referring to that Covenant, but only to the extent of the violation of the Covenant referred to in that notice, unless an exception in Schedule B of the policy identifies the notice of the violation.
4. This endorsement does not insure against loss or damage (and the Company will not pay costs, attorneys' fees, or expenses) resulting from:
  - a. any Covenant contained in an instrument creating a lease;
  - b. any Covenant relating to obligations of any type to perform maintenance, repair, or remediation on the Land; or
  - c. except as provided in Section 3.b, any Covenant relating to environmental protection of any kind or nature, including hazardous or toxic matters, conditions, or substances.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

**First American**

ACCESS AND ENTRY  
ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by the Insured if, at Date of Policy (i) the Land does not abut and have both actual vehicular and pedestrian access to and from Meyers Avenue (the "Street"), (ii) the Street is not physically open and publicly maintained, or (iii) the Insured has no right to use existing curb cuts or entries along that portion of the Street abutting the Land.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

**First American**

UTILITY ACCESS ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by the Insured by reason of the lack of a right of access to the following utilities or services: [CHECK ALL THAT APPLY]

- |  |  |   |
|--|--|---|
| <input checked="" type="checkbox"/> Water service            | <input type="checkbox"/> Natural gas service       | <input checked="" type="checkbox"/> Telephone service |
| <input checked="" type="checkbox"/> Electrical power service | <input checked="" type="checkbox"/> Sanitary sewer | <input type="checkbox"/> Storm water drainage         |
| <input type="checkbox"/>                                     | <input type="checkbox"/>                           | <input type="checkbox"/>                              |

either over, under or upon rights-of-way or easements for the benefit of the Land because of:

- (1) a gap or gore between the boundaries of the Land and the rights-of-way or easements;
- (2) a gap between the boundaries of the rights-of-way or easements; or
- (3) a termination by a grantor, or its successor, of the rights-of-way or easements.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. LOCATION AND MAP  
ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by the Insured by reason of the failure of (i) vacant land

known as 2351 Meyers Avenue, Escondido, CA,

to be located on the Land at Date of Policy, or (ii) the map, if any, attached to this policy to correctly show the location and dimensions of the Land according to the Public Records.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

SAME AS SURVEY ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by the Insured by reason of the failure of the Land as described in Schedule A to be the same as that identified on the survey made by Pasco Laret Suiter & Associates dated August 31, 2021, and designated Job No. 3446.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. EASEMENT - DAMAGE OR ENFORCED  
REMOVAL ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by the Insured if the exercise of the granted or reserved rights to use or maintain the easement(s) referred to in the Exception(s) 4, 5, 6 and 7 of Schedule B results in:

1. damage to an existing building located on the Land, or
2. enforced removal or alteration of an existing building located on the Land.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. ENCROACHMENTS - BOUNDARIES AND EASEMENTS  
ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

1. The insurance provided by this endorsement is subject to the exclusions in Section 4 of this endorsement; and the Exclusions from Coverage, the Exceptions from Coverage contained in Schedule B, and the Conditions in the policy.
2. For purposes of this endorsement only, "Improvement" means an existing building, located on either the Land or adjoining land at Date of Policy and that by law constitutes real property.
3. The Company insures against loss or damage sustained by the Insured by reason of:
  - a. An encroachment of any Improvement located on the Land onto adjoining land or onto that portion of the Land subject to an easement, unless an exception in Schedule B of the policy identifies the encroachment;
  - b. An encroachment of any Improvement located on adjoining land onto the Land at Date of Policy, unless an exception in Schedule B of the policy identifies the encroachment;
  - c. Enforced removal of any Improvement located on the Land as a result of an encroachment by the Improvement onto any portion of the Land subject to any easement, in the event that the owners of the easement shall, for the purpose of exercising the right of use or maintenance of the easement, compel removal or relocation of the encroaching Improvement; or
  - d. Enforced removal of any Improvement located on the Land that encroaches onto adjoining land.
4. This endorsement does not insure against loss or damage (and the Company will not pay costs, attorneys' fees, or expenses) resulting from the encroachments listed as Exceptions NONE of Schedule B.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous

endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

CC&R'S, VIOLATIONS ENDORSEMENT

Issued by

*First American Title Insurance Company*

Attached to Policy No.: 1094366

File No.: NCS-1094366-PHX1

The Company insures against loss or damage sustained by reason of any existing violations on the Land of the covenants, conditions and restrictions referred to in paragraph 3 and 6 of Schedule B.

As used in this endorsement, the words "covenants, conditions or restrictions" do not refer to or include any covenant, condition or restriction (a) relating to obligations of any type to perform maintenance, repair or remediation on the Land, or (b) pertaining to environmental protection of any kind or nature, including hazardous or toxic matters, conditions or substances except to the extent that a notice of a violation or alleged violation affecting the Land has been recorded in the Public Records at Date of Policy and is not excepted in Schedule B.

This endorsement is issued as part of the policy. Except as it expressly states, it does not (i) modify any of the terms and provisions of the policy, (ii) modify any prior endorsements, (iii) extend the Date of Policy, or (iv) increase the Amount of Insurance. To the extent a provision of the policy or a previous endorsement is inconsistent with an express provision of this endorsement, this endorsement controls. Otherwise, this endorsement is subject to all of the terms and provisions of the policy and of any prior endorsements.

# TOPOGRAPHIC MAPS

**Project Property:** Via West Myers Barham  
Barham Drive  
San Marcos CA

**Project No:** 1121001

**Requested By:** TA-Group DD, LLC

**Order No:** 21111600082

**Date Completed:** November 16, 2021

We have searched USGS collections of current topographic maps and historical topographic maps for the project property. Below is a list of maps found for the project property and adjacent area. Maps are from 7.5 and 15 minute topographic map series, if available.

Year	Map Series
2015	7.5
1996	7.5
1983	7.5
1975	7.5
1968	7.5
1949	7.5
1948	7.5
1901	15
1893	15

**Topographic Map Symbology for the maps may be available in the following documents:**

*Pre-1947*

November 22, 2021  
RE: CITY DIRECTORY RESEARCH  
Via West Myers Barham  
Barham Drive Escondido, CA

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

**Search Criteria:**

2250-2550 of Barham Drive  
2350-2550 of Myers Avenue

## **Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY**

**Reliance on information in Report:** This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

**License for use of information in Report:** No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

**Your Liability for misuse:** Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

**No warranty of Accuracy or Liability for ERIS:** The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

**Trademark and Copyright:** You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

**Violation Description:**

Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:

- (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
- (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
- (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

<i>Violation Notes:</i>			

Returned to compliance on 01/06/2020. Inspection Sequence ID:6120376

***Violation Description:***

- Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met:
- (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms.
  - (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f).
  - (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

<b>Description of Events:</b>	DRIVER WAS TRANSFERRING A 55 GALLON DRUM FROM ONE VEHICLE TO ANOTHER. DURING THE MOVEMENT OF THE DRUM A BINDER CLIP THAT AT SOME POINT FELL INTO THE TRUCK BED PUNCTURED THE POLY DRUM AND THE BOTTOM CORNER OF THE DRUM. THE DRUM WAS IMMEDIATELY TILTED TO IT'S SIDE TO KEEP IT FROM CONTINUING TO LEAK INTO THE TRUCK BED. THE AMOUNT RELEASED WAS -1/2 GALLON OF THAT 3 OUNCES WAS RELEASED FROM THE TRUCK ONTO THE ASPHALT. VERMICULITE AND SPILL PADS WERE USED TO CONTAIN THE SPILL. ON-SITE PERSONNEL CLEANED UP THE SPILL AND PLACED THE DRUM AND ASSOCIATED CLEAN-UP MATERIAL INTO AN 85 GALLON SALVAGE DRUM FOR SHIPMENT.					
<b>Recommend Actions Taken:</b>	ALL TRAILERS WERE REVIEWED FOR DEBRIS AND CLEANED AS NECESSARY. TRAINING OF HAZMAT EMPLOYEES OCCURRED RELATED TO THE INCIDENT.

<b>Site History:</b>			

The site consists of the properties located at 2250 Meyers Avenue, 655 Opper Street, and 665 Opper Street. RG Circuits, which operated from 1971 to 1981, reportedly used the property for the manufacture of circuit boards. Hebdon Electronics Inc., which operated from 1981 to 1991, manufactured printed circuit boards including tin-lead plating, solder fusing, copper plating, nickel and gold plating, spent nickel/tin/lead/anode stripping, copper solution deplating (LIX-84 process using an alkyl acetophenone oxime in a kerosene matrix), and various etching activities. USL Inc. operated facilities initiated by Hebdon Electronics Inc. between 1991 and 1992. Currently, the site building is occupied by a store that supplies industrial gases, welding gases, welding supplies, and safety equipment.

**Site History:**

The site consists of the properties located at 2250 Meyers Avenue, 655 Opper Street, and 665 Opper Street. RG Circuits, which operated from 1971 to 1981, reportedly used the property for the manufacture of circuit boards. Hebdon Electronics Inc., which operated from 1981 to 1991, manufactured printed circuit boards including tin-lead plating, solder fusing, copper plating, nickel and gold plating, spent nickel/tin/lead/anode stripping, copper solution deplating (LIX-84 process using an alkyl acetophenone oxime in a kerosene matrix), and various etching activities. USL Inc. operated facilities initiated by Hebdon Electronics Inc. between 1991 and 1992. Currently, the site building is occupied by a store that supplies industrial gases, welding gases, welding supplies, and safety equipment.

**Sites from GeoTracker Search - Cleanup Action Report (as of May 29, 2021)**

**Action Type:** IN SITU PHYSICAL/CHEMICAL TREATMENT (OTHER THAN SVE) **Begin Date:** 8/1/2005  
**Phase:** Water **End Date:** 1/18/2006  
**Description:**  
**Contaminant Mass Removed:**

Map Key	Number of Records	Direction	Distance (mi/ft)	Elev/Diff (ft)	Site	DB

#### Violation/Evaluation Summary

**Note:** NO RECORDS: As of Aug 2021, there are no Compliance Monitoring and Enforcement (violation) records associated with this facility (EPA ID).

#### Handler Summary

**Importer Activity:** No  
**Mixed Waste Generator:** No  
**Transporter Activity:** No  
**Transfer Facility:** No  
**Onsite Burner Exemption:** No  
**Furnace Exemption:** No  
**Underground Injection Activity:** No  
**Commercial TSD:** No  
**Used Oil Transporter:** No  
**Used Oil Transfer Facility:** No  
**Used Oil Processor:** No  
**Used Oil Refiner:** No  
**Used Oil Burner:** No  
**Used Oil Market Burner:** No  
**Used Oil Spec Marketer:** No

#### Hazardous Waste Handler Details

In April 2007, seven soil borings were advanced at the site for due diligence purposes. Based on soil and grab groundwater data, a case was opened on June 13, 2007. One out of 18 soil samples reported concentrations above 100 ppm for TPHd (B02-10 = 280 ppm). All other analytes were reported below laboratory detection limits, with the exception of soil sample B03-10, which reported concentrations of 8.1 ppm and 14 ppm for Ethylbenzene and Total Xylenes, respectively. Six grab groundwater samples were collected and analyzed. TPHg concentrations ranged from <50 ppb to 630,000 ppb (B03-GW); TPHd concentrations ranged from 50 ppb to 150,000 ppb (B03-GW). All other analytes were reported below Maximum Contaminant Levels, with the exception of sample B03-GW, which reported concentrations of 2,300 ppb and 4,130 ppb for Ethylbenzene and Total Xylenes, respectively. In February 2008, four onsite groundwater monitoring wells were installed. Based on the investigation, it was determined that soil and groundwater contamination has been delineated. During this investigation, the only analyte detected in soil was TPH, which ranged in concentration from <5 ppm to 31 ppm (MW-3). The consultant stated that residual TPH-impacted soil does not pose a risk to human health or the environment. Groundwater was monitored and sampled for six consecutive quarters beginning in March 2008. The screened section of all wells are submerged; however, the consultant stated that the analytical groundwater data is valid. The groundwater table is within the filter pack portion in wells MW-1, MW-2, and MW-4, and groundwater analytical data has been consistent. All dissolved-phase analytes have been below laboratory detection limits with the exception of MTBE and TPH, which historically ranged from <1 ppb to 26 ppb (MW-1) and <50 to 120 ppb (MW-1), respectively. Currently, TPH is reported below laboratory detection limits in all wells and MTBE concentrations ranges from <1 ppb to 3.3 ppb (MW-1). The consultant stated that the dissolved-phase contamination does not pose a risk to human health, nearby sensitive receptors, or the environment. The consultant also stated that the high TPH concentrations from the grab groundwater samples collected during the April 2007 due diligence investigation are anomalous because they were not able to obtain similar groundwater concentrations from nearby wells MW-2 and MW-3. Based on available data, DEH concurs with the consultant's conclusions.

All other analytes were reported below Maximum Contaminant Levels, with the exception of sample B03-GW, which reported concentrations of 2,300 ppb and 4,130 ppb for Ethylbenzene and Total Xylenes, respectively. In February 2008, four onsite groundwater monitoring wells were installed. Based on the investigation, it was determined that soil and groundwater contamination has been delineated. During this investigation, the only analyte detected in soil was TPH, which ranged in concentration from <5 ppm to 31 ppm (MW-3). The consultant stated that residual TPH-impacted soil does not pose a risk to human health or the environment. Groundwater was monitored and sampled for six consecutive quarters beginning in March 2008. The screened section of all wells are submerged; however, the consultant stated that the analytical groundwater data is valid. The groundwater table is within the filter pack portion in wells MW-1, MW-2, and MW-4, and groundwater analytical data has been consistent. All dissolved-phase analytes have been below laboratory detection limits with the exception of MTBE and TPH, which historically ranged from <1 ppb to 26 ppb (MW-1) and <50 to 120 ppb (MW-1), respectively. Currently, TPH is reported below laboratory detection limits in all wells and MTBE concentrations ranges from <1 ppb to 3.3 ppb (MW-1). The consultant stated that the dissolved-phase contamination does not pose a risk to human health, nearby sensitive receptors, or the environment.

<b>Map Key</b>	<b>Number of Records</b>	<b>Direction</b>	<b>Distance (mi/ft)</b>	<b>Elev/Diff (ft)</b>	<b>Site</b>	<b>DB</b>
----------------	--------------------------	------------------	-------------------------	-----------------------	-------------	-----------

The consultant also stated that the high TPH concentrations from the grab groundwater samples collected during the April 2007 due diligence investigation are anomalous because they were not able to obtain similar groundwater concentrations from nearby wells MW-2 and MW-3. Based on available data, DEH concurs with the consultant's conclusions.

<b>RB Case No:</b>	9UT3874				<b>Potential COC:</b> Gasoline	
<b>Local Case No:</b>					<b>How Discovered:</b> Tank Closure	
<b>Begin Date:</b>	2/23/1999				<b>Stop Method:</b> Close and Remove Tank	
<b>Lead Agency:</b>	SAN DIEGO RWQCB (REGION 9)				<b>Stop Description:</b> CLOSE AND REMOVE TANK	
<b>Local Agency:</b>					<b>Case Worker:</b>	
<b>CUF Case:</b>	YES				<b>File Location:</b> Local Agency	
<b>Potential Media of Concern:</b>		Aquifer used for drinking water supply				
<b>How Discovered Description:</b>						
<b>Calwater Watershed Name:</b>		Carlsbad - Escondido Creek - Escondido (904.62)				
<b>DWR GW Subbasin Name:</b>						
<b>Disadvantaged Community:</b>						
<b>Calenviroscreen Score:</b>		56-60%				
<b>Site History:</b>						

Contamination was identified on site in February 1999 during a fuel system upgrade. At the time contamination was identified, a soil investigation was initiated on site. Subsequently, groundwater monitoring wells have indicated that additional site assessment is required for this site to determine the later extent of contamination. Please see the Environmental Data tab for additional site specific information.

# Unplottable Summary

Total: 0 Unplottable sites

DB	Company Name/Site Name	Address	City	Zip	ERIS ID
----	------------------------	---------	------	-----	---------

No unplottable records were found that may be relevant for the search criteria.

# Unplottable Report

No unplottable records were found that may be relevant for the search criteria.

# Appendix: Database Descriptions

*Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:*

*"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."*

## Standard Environmental Record Sources

### Federal

#### Formerly Utilized Sites Remedial Action Program:

[DOE FUSRAP](#)

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

**Government Publication Date: Mar 4, 2017**

#### National Priority List:

[NPL](#)

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

**Government Publication Date: Aug 25, 2021**

#### National Priority List - Proposed:

[PROPOSED NPL](#)

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

**Government Publication Date: Aug 25, 2021**

#### Deleted NPL:

[DELETED NPL](#)

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

**Government Publication Date: Aug 25, 2021**

#### SEMS List 8R Active Site Inventory:

[SEMS](#)

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

**Government Publication Date: Oct 20, 2021**

#### SEMS List 8R Archive Sites:

[SEMS ARCHIVE](#)

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

**Government Publication Date: Oct 20, 2021**

**Inventory of Open Dumps, June 1985:**

ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

**Government Publication Date: Jun 1985**

**Comprehensive Environmental Response, Compensation and Liability Information System -**

CERCLIS

**CERCLIS:**

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

**Government Publication Date: Oct 25, 2013**

**EPA Report on the Status of Open Dumps on Indian Lands:**

IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

**Government Publication Date: Dec 31, 1998**

**CERCLIS - No Further Remedial Action Planned:**

CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

**Government Publication Date: Oct 25, 2013**

**CERCLIS Liens:**

CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date: Jan 30, 2014**

**RCRA CORRACTS-Corrective Action:**

RCRA CORRACTS

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

**Government Publication Date: Aug 30, 2021**

**RCRA non-CORRACTS TSD Facilities:**

RCRA TSD

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

**Government Publication Date: Aug 30, 2021**

**RCRA Generator List:**

RCRA LQG

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

**Government Publication Date: Aug 30, 2021**

**RCRA Small Quantity Generators List:**

[RCRA SQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

**Government Publication Date: Aug 30, 2021**

**RCRA Very Small Quantity Generators List:**

[RCRA VSQG](#)

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

**Government Publication Date: Aug 30, 2021**

**RCRA Non-Generators:**

[RCRA NON GEN](#)

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

**Government Publication Date: Aug 30, 2021**

**Federal Engineering Controls-ECs:**

[FED ENG](#)

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date: Feb 23, 2021**

**Federal Institutional Controls- ICs:**

[FED INST](#)

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

**Government Publication Date: Feb 23, 2021**

**Land Use Control Information System:**

[LUCIS](#)

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

**Government Publication Date: Sep 1, 2006**

**Emergency Response Notification System:**

[ERNS 1982 TO 1986](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

**Government Publication Date: 1982-1986**

**Emergency Response Notification System:**

[ERNS 1987 TO 1989](#)

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

**Government Publication Date: 1987-1989**

**Emergency Response Notification System:**

[ERNS](#)

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

**Government Publication Date: Jul 26, 2021**

**The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:**

[FED BROWNFIELDS](#)

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

**Government Publication Date:** Aug 20, 2021

**FEMA Underground Storage Tank Listing:**

[FEMA UST](#)

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

**Government Publication Date:** Dec 31, 2017

**Facility Response Plan:**

[FRP](#)

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

**Government Publication Date:** Dec 2, 2020

**Historical Gas Stations:**

[HIST GAS STATIONS](#)

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

**Government Publication Date:** Jul 1, 1930

**Petroleum Refineries:**

[REFN](#)

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

**Government Publication Date:** Jul 10, 2020

**Petroleum Product and Crude Oil Rail Terminals:**

[BULK TERMINAL](#)

List of petroleum product and crude oil rail terminals made available by the U.S. Energy Information Administration (EIA). Includes operable bulk petroleum product terminals located in the 50 States and the District of Columbia with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil that were active between 2017 and 2018. Petroleum product terminals comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings. Survey locations adjusted using public data.

**Government Publication Date:** Apr 28, 2020

**LIEN on Property:**

[SEMS LIEN](#)

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

**Government Publication Date:** Oct 20, 2021

**Superfund Decision Documents:**

[SUPERFUND ROD](#)

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

**Government Publication Date:** Jun 28, 2021

**State**

**State Response Sites:**

[RESPONSE](#)

A list of identified confirmed release sites where the Department of Toxic Substances Control (DTSC) is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk. This database is state equivalent NPL.

**Government Publication Date:** Sep 15, 2021

**EnviroStor Database:**

[ENVIROSTOR](#)

The EnviroStor Data Management System is made available by the Department of Toxic Substances Control (DTSC). Includes Corrective Action sites, Tiered Permit sites, Historical Sites and Evaluation/Investigation sites. This database is state equivalent CERCLIS.

**Government Publication Date: Sep 15, 2021**

**Delisted State Response Sites:**

[DELISTED ENVS](#)

Sites removed from the list of State Response Sites made available by the EnviroStor Data Management System, Department of Toxic Substances Control (DTSC).

**Government Publication Date: Sep 15, 2021**

**Solid Waste Information System (SWIS):**

[SWF/LF](#)

The Solid Waste Information System (SWIS) database made available by the Department of Resources Recycling and Recovery (CalRecycle) contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites.

**Government Publication Date: Nov 2, 2021**

**Solid Waste Disposal Sites with Waste Constituents Above Hazardous Waste Levels:**

[SWRCB SWF](#)

This is a list of solid waste disposal sites identified by California State Water Resources Control Board with waste constituents above hazardous waste levels outside the waste management unit.

**Government Publication Date: Sep 20, 2006**

**EnviroStor Hazardous Waste Facilities:**

[HWP](#)

A list of hazardous waste facilities including permitted, post-closure and historical facilities found in the Department of Toxic Substances Control (DTSC) EnviroStor database.

**Government Publication Date: Sep 15, 2021**

**Sites Listed in the Solid Waste Assessment Test (SWAT) Program Report:**

[SWAT](#)

In a 1993 Memorandum of Understanding, the State Water Resources Control Board (SWRCB) agreed to submit a comprehensive report on the Solid Waste Assessment Test (SWAT) Program to the California Integrated Waste Management Board (CIWMB). This report summarizes the work completed to date on the SWAT Program, and addresses both the impacts that leakage from solid waste disposal sites (SWDS) may have upon waters of the State and the actions taken to address such leakage.

**Government Publication Date: Dec 31, 1995**

**Construction and Demolition Debris Recyclers:**

[C&D DEBRIS RECY](#)

This listing of Construction and Demolition Debris Recyclers is maintained by the California Intergrated Waste Management Board-common C&D materials include lumber, drywall, metals, masonry (brick, concrete, etc.), carpet, plastic, pipe, rocks, dirt, paper, cardboard, or green waste related to land development.

**Government Publication Date: Jun 20, 2018**

**Recycling Centers:**

[RECYCLING](#)

This list of Certified Recycling Centers that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Nov 2, 2020**

**Listing of Certified Processors:**

[PROCESSORS](#)

This list of Certified Processors that are operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Oct 27, 2020**

**Listing of Certified Dropoff, Collection, and Community Service Programs:**

[CONTAINER RECY](#)

This list of Certified Dropoff, Collection, and Community Service Programs (non-buyback) operating under the state of California's Beverage Container Recycling Program is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Dec 16, 2020**

**Land Disposal Sites:**

[LDS](#)

Land Disposal Sites in GeoTracker, the State Water Resources Control Board (SWRCB)'s data management system. The Land Disposal program regulates of waste discharge to land for treatment, storage and disposal in waste management units. Waste management units include waste piles, surface impoundments, and landfills.

Government Publication Date: Jun 22, 2021

**Leaking Underground Fuel Tank Reports:**

LUST

List of Leaking Underground Storage Tanks within the Cleanup Sites data in GeoTracker database. GeoTracker is the State Water Resources Control Board's (SWRCB) data management system for managing sites that impact groundwater, especially those that require groundwater cleanup (Underground Storage Tanks, Department of Defense and Site Cleanup Program) as well as permitted facilities such as operating Underground Storage Tanks. The Leak Prevention Program that overlooks LUST sites is the SWRCB in California's Environmental Protection Agency.

Government Publication Date: Jun 22, 2021

**Delisted Leaking Storage Tanks:**

DELISTED LST

List of Leaking Underground Storage Tanks (LUST) cleanup sites removed from GeoTracker, the State Water Resources Control Board (SWRCB)'s database system, as well as sites removed from the SWRCB's list of UST Case closures.

Government Publication Date: Jun 22, 2021

**Permitted Underground Storage Tank (UST) in GeoTracker:**

UST

List of Permitted Underground Storage Tank (UST) sites made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA).

Government Publication Date: Oct 17, 2021

**Proposed Closure of Underground Storage Tank Cases:**

UST CLOSURE

List of UST cases that are being considered for closure by either the California Environmental Protection Agency, State Water Resources Control Board or the Executive Director that have been posted for a 60-day public comment period.

Government Publication Date: May 5, 2021

**Historical Hazardous Substance Storage Information Database:**

HHSS

The Historical Hazardous Substance Storage database contains information collected in the 1980s from facilities that stored hazardous substances. The information was originally collected on paper forms, was later transferred to microfiche, and recently indexed as a searchable database. When using this database, please be aware that it is based upon self-reported information submitted by facilities which has not been independently verified. It is unlikely that every facility responded to the survey and the database should not be expected to be a complete inventory of all facilities that were operating at that time. This database is maintained by the California State Water Resources Control Board's (SWRCB) Geotracker.

Government Publication Date: Aug 27, 2015

**Statewide Environmental Evaluation and Planning System:**

UST SWEEPS

The Statewide Environmental Evaluation and Planning System (SWEEPS) is a historical listing of active and inactive underground storage tanks made available by the California State Water Resources Control Board (SWRCB).

Government Publication Date: Oct 1, 1994

**Aboveground Storage Tanks:**

AST

A statewide list from 2009 of aboveground storage tanks (ASTs) made available by the Cal FIRE Office of the State Fire Marshal (OSFM). This list is no longer maintained or updated by the Cal FIRE OSFM.

Government Publication Date: Aug 31, 2009

**SWRCB Historical Aboveground Storage Tanks:**

AST SWRCB

A list of aboveground storage tanks made available by the California State Water Resources Control Board (SWRCB). Effective January 1, 2008, the Certified Unified Program Agencies (CUPAs) are vested with the responsibility and authority to implement the Aboveground Petroleum Storage Act (APSA).

Government Publication Date: Dec 1, 2007

**Oil and Gas Facility Tanks:**

TANK OIL GAS

Locations of oil and gas tanks that fall under the jurisdiction of the Geologic Energy Management Division of the California Department of Conservation (CalGEM) (CCR 1760). CalGEM was formerly the Division of Oil, Gas, and Geothermal Resources (DOGGR).

Government Publication Date: Sep 13, 2021

**Delisted Storage Tanks:**

DELISTED TNK

This database contains a list of storage tank sites that were removed by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency (EPA) and the Cal FIRE Office of State Fire Marshal (OSFM).

Government Publication Date: Oct 26, 2021

**California Environmental Reporting System (CERS) Tanks:**

CERS TANK

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

**Government Publication Date: Sep 24, 2021**

**Delisted California Environmental Reporting System (CERS) Tanks:**

DELISTED CTNK

This database contains a list of Aboveground Petroleum Storage and Underground Storage Tank sites that were removed from in the California Environmental Protection Agency (CalEPA) Regulated Site Portal.

**Government Publication Date: Sep 24, 2021**

**Historical Hazardous Substance Storage Container Information - Facility Summary:**

HIST TANK

The State Water Resources Control Board maintained the Hazardous Substance Storage Containers listing and inventory in the 1980s. This facility summary lists historic tank sites where the following container types were present: farm motor vehicle fuel tanks; waste tanks; sumps; pits, ponds, lagoons, and others; and all other product tanks. This set, published in May 1988, lists facility and owner information, as well as the number of containers. This data is historic and will not be updated.

**Government Publication Date: May 27, 1988**

**Site Mitigation and Brownfields Reuse Program Facility Sites with Land Use Restrictions:**

LUR

The Department of Toxic Substances Control (DTSC) Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents land use restrictions that are active. Some sites have multiple land use restrictions.

**Government Publication Date: Sep 15, 2021**

**CALSITES Database:**

CALSITES

This historical database was maintained by the Department of Toxic Substance Control (DTSC) for more than a decade. CALSITES contains information on Brownfield properties with confirmed or potential hazardous contamination. In 2006, DTSC introduced EnviroStor as the latest Brownfields site database.

**Government Publication Date: May 1, 2004**

**Hazardous Waste Management Program Facility Sites with Deed / Land Use Restrictions:**

HLUR

The Department of Toxic Substances Control (DTSC) Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

**Government Publication Date: Feb 18, 2021**

**Deed Restrictions and Land Use Restrictions:**

DEED

List of Deed Restrictions, Land Use Restrictions and Covenants in GeoTracker made available by the State Water Resources Control Board (SWRCB) in California's Environmental Protection Agency. A deed restriction (land use covenant) may be required to facilitate the remediation of past environmental contamination and to protect human health and the environment by reducing the risk of exposure to residual hazardous materials.

**Government Publication Date: Jun 22, 2021**

**Voluntary Cleanup Program:**

VCP

List of sites in the Voluntary Cleanup Program made available by the Department of Toxic Substances and Control (DTSC). The Voluntary Cleanup Program was designed to respond to lower priority sites. Under the Voluntary Cleanup Program, DTSC enters site-specific agreements with project proponents for DTSC oversight of site assessment, investigation, and/or removal or remediation activities, and the project proponents agree to pay DTSC's reasonable costs for those services.

**Government Publication Date: Sep 15, 2021**

**GeoTracker Cleanup Program Sites:**

CLEANUP SITES

A list of Cleanup Program sites in the state of California made available by The State Water Resources Control Board (SWRCB) of the California Environmental Protection Agency (EPA). SWRCB tracks leaking underground storage tank cleanups as well as other water board cleanups.

**Government Publication Date: Jun 22, 2021**

**Delisted County Records:**

DELISTED COUNTY

Records removed from county or CUPA databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

## **Tribal**

**Leaking Underground Storage Tanks (LUSTs) on Indian Lands:**  
LUSTs on Tribal/Indian Lands in Region 9, which includes California.  
Government Publication Date: Apr 8, 2020

[INDIAN LUST](#)

**Underground Storage Tanks (USTs) on Indian Lands:**  
USTs on Tribal/Indian Lands in Region 9, which includes California.  
Government Publication Date: Apr 8, 2020

[INDIAN UST](#)

**Delisted Tribal Leaking Storage Tanks:**  
Leaking Underground Storage Tank facilities which have been removed from the Regional Tribal LUST lists made available by the EPA.  
Government Publication Date: Apr 14, 2020

[DELISTED ILST](#)

**Delisted Tribal Underground Storage Tanks:**  
Underground Storage Tank facilities which have been removed from the Regional Tribal UST lists made available by the EPA.  
Government Publication Date: Apr 14, 2020

[DELISTED IUST](#)

## **County**

**San Diego County - Solid Waste Facility List:**  
A list of open and closed Solid Waste Facilities in the County of San Diego. The County of San Diego Department of Environmental Health Solid Waste Local Enforcement Agency (LEA) is certified by the California Department of Resources Recycling and Recovery to enforce state solid waste laws and regulations in San Diego County, excluding the City of San Diego. The list is made available by San Diego County Department of Environmental Health.  
Government Publication Date: Dec 2, 2020

[SWF SANDIEGO](#)

**San Diego County - Local Oversight Program List:**  
A list of Underground Storage Tank (UST) release sites in the County of San Diego. This list is made available by San Diego County Department of Environmental Health.  
Government Publication Date: Jun 15, 2020

[LOP SANDIEGO](#)

**San Diego County - Hazardous Materials Management Division Database:**  
A list of facilities with Unified Program Facility Permit in San Diego County. This list has been made available by County of San Diego Environmental Health.  
Government Publication Date: Apr 12, 2021

[HAZ SANDIEGO](#)

**San Diego County - UST List:**  
A list of registered Underground Storage Tanks in the County of San Diego. The list is made available by the San Diego County Hazardous Materials Division.  
Government Publication Date: Oct 26, 2021

[UST SANDIEGO](#)

**San Diego County - Site Assessment and Mitigation Investigation Sites:**  
List of sites which have undergone a Site Assessment and Mitigation investigation. This list is made available by the County of San Diego Department of Environmental Health.  
Government Publication Date: Jun 30, 2020

[SAM SANDIEGO](#)

## **Additional Environmental Record Sources**

### **Federal**

**PFOA/PFOS Contaminated Sites:**

[PFAS NPL](#)

List of sites where PFOA or PFOS contaminants have been found in drinking water or soil. Made available by the Federal Environmental Protection Agency (EPA).

**Government Publication Date: Sep 17, 2021**

**Facility Registry Service/Facility Index:**

[FINDS/FRS](#)

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the Environmental Protection Agency (US EPA).

**Government Publication Date: Nov 2, 2020**

**Toxics Release Inventory (TRI) Program:**

[TRIS](#)

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

**Government Publication Date: Aug 24, 2021**

**Perfluorinated Alkyl Substances (PFAS) Releases:**

[PFAS TRI](#)

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a Per- or polyfluorinated alkyl substance (PFAS) included in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances. The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment.

**Government Publication Date: Aug 24, 2021**

**Perfluorinated Alkyl Substances (PFAS) Water Quality:**

[PFAS WATER](#)

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated PFAS Master List of PFAS Substances.

**Government Publication Date: Jul 20, 2020**

**Hazardous Materials Information Reporting System:**

[HMIRS](#)

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

**Government Publication Date: Sep 1, 2020**

**National Clandestine Drug Labs:**

[NCDL](#)

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

**Government Publication Date: Oct 5, 2020**

**Toxic Substances Control Act:**

[TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

**Government Publication Date: Apr 11, 2019**

**Hist TSCA:**

[HIST TSCA](#)

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

**FTTS Administrative Case Listing:**

[FTTS ADMIN](#)

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

**FTTS Inspection Case Listing:**

[FTTS INSP](#)

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

**Potentially Responsible Parties List:**

[PRP](#)

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

Government Publication Date: Oct 20, 2021

**State Coalition for Remediation of Drycleaners Listing:**

[SCRD DRYCLEANER](#)

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Nov 08, 2017

**Integrated Compliance Information System (ICIS):**

[ICIS](#)

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

Government Publication Date: Jun 14, 2021

**Drycleaner Facilities:**

[FED DRYCLEANERS](#)

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) online search. The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: May 5, 2021

**Delisted Drycleaner Facilities:**

[DELISTED FED DRY](#)

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: May 5, 2021

**Formerly Used Defense Sites:**

[FUDS](#)

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: May 26, 2021

**Former Military Nike Missile Sites:**

[FORMER NIKE](#)

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

**PHMSA Pipeline Safety Flagged Incidents:**

[PIPELINE INCIDENT](#)

A list of flagged pipeline incidents made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types.

**Government Publication Date: Jul 7, 2020**

**Material Licensing Tracking System (MLTS):**

[MLTS](#)

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

**Government Publication Date: May 11, 2021**

**Historic Material Licensing Tracking System (MLTS) sites:**

[HIST MLTS](#)

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

**Government Publication Date: Jan 31, 2010**

**Mines Master Index File:**

[MINES](#)

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

**Government Publication Date: Nov 3, 2020**

**Surface Mining Control and Reclamation Act Sites:**

[SMCRA](#)

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

**Government Publication Date: Dec 18, 2020**

**Mineral Resource Data System:**

[MRDS](#)

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

**Government Publication Date: Mar 15, 2006**

**Uranium Mill Tailings Radiation Control Act Sites:**

[URANIUM](#)

The Legacy Management Office of the Department of Energy (DOE) manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The L.M. Office manages this database of sites registered under the Uranium Mill Tailings Control Act (UMTRCA).

**Government Publication Date: Mar 4, 2017**

**Alternative Fueling Stations:**

[ALT FUELS](#)

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

**Government Publication Date: Oct 25, 2021**

**Registered Pesticide Establishments:**

[SSTS](#)

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

**Government Publication Date: Apr 13, 2021**

**Polychlorinated Biphenyl (PCB) Notifiers:**

[PCB](#)

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

**Government Publication Date: Nov 19, 2020**

**State**

**Dry Cleaning Facilities:**

[DRYCLEANERS](#)

A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial, linen supply, commercial laundry, dry cleaning and pressing machines - Coin Operated Laundry and Dry Cleaning. This is provided by the Department of Toxic Substance Control.

**Government Publication Date: Aug 27, 2021**

**Delisted Drycleaners:**

[DELISTED DRYCLEANERS](#)

Sites removed from the list of drycleaner related facilities that have EPA ID numbers, made available by the California Department of Toxic Substance Control.

**Government Publication Date: Aug 27, 2021**

**Non-Toxic Dry Cleaning Incentive Program:**

[DRYC GRANT](#)

A list of grant recipients of the Non-Toxic Dry Cleaning Incentive Program made available by the California Air Resources Board (CARB). The program provides grants to eligible dry cleaning businesses to assist them in transitioning away from PERC machines to alternative non-toxic and non-smog forming technologies.

**Government Publication Date: Feb 28, 2018**

**Per- and Polyfluoroalkyl Substances (PFAS):**

[PFAS](#)

List of sites from the State Water Resources Control Board (SWRCB)'s GeoTracker at which one or more of the potential contaminants of concern are in the PFAS Master List of PFAS Substances made available by the Environmental Protection Agency (US EPA).

**Government Publication Date: Jun 22, 2021**

**PFOA/PFOS Groundwater:**

[PFAS GW](#)

A list of water wells from the Groundwater Ambient Monitoring and Assessment Program (GAMA) Groundwater Information System with the groundwater chemical perfluorooctanoic acid (PFOA) (NL = 0.014 UG/L) or perfluorooctanoic sulfonate (PFOS) (NL = 0.013 UG/L). The GAMA Groundwater Information System search is made available by California Water Boards.

**Government Publication Date: Oct 22, 2020**

**Hazardous Waste and Substances Site List - Site Cleanup:**

[HWSS CLEANUP](#)

The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements in providing information about the location of hazardous materials release sites. This list is published by California Department of Toxic Substance Control.

**Government Publication Date: May 20, 2021**

**List of Hazardous Waste Facilities Subject to Corrective Action:**

[DTSC HWF](#)

This is a list of hazardous waste facilities identified in Health and Safety Code (HSC) § 25187.5. These facilities are those where Department of Toxic Substances Control (DTSC) has taken or contracted for corrective action because a facility owner/operator has failed to comply with a date for taking corrective action in an order issued under HSC § 25187, or because DTSC determined that immediate corrective action was necessary to abate an imminent or substantial endangerment.

**Government Publication Date: Jul 18, 2016**

**EnviroStor Inspection, Compliance, and Enforcement:**

[INSP COMP ENF](#)

A list of permitted facilities with inspections and enforcements tracked in the Department of Toxic Substance Control (DTSC) EnviroStor.

**Government Publication Date: Apr 29, 2021**

**School Property Evaluation Program Sites:**

[SCH](#)

A list of sites registered with The Department of Toxic Substances Control (DTSC) School Property Evaluation and Cleanup (SPEC) Division. SPEC is responsible for assessing, investigating and cleaning up proposed school sites. The Division ensures that selected properties are free of contamination or, if the properties were previously contaminated, that they have been cleaned up to a level that protects the students and staff who will occupy the new school.

**Government Publication Date: Sep 15, 2021**

**California Hazardous Material Incident Report System (CHMIRS):**

[CHMIRS](#)

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS). This list has been made available by the California Office of Emergency Services (OES).

**Government Publication Date: Aug 1, 2021**

**Historical California Hazardous Material Incident Report System (CHMIRS):**

[HIST CHMIRS](#)

A list of reported hazardous material incidents, spills, and releases from the California Hazardous Material Incident Report System (CHMIRS) prior to 1993. This list has been made available by the California Office of Emergency Services (OES).

**Government Publication Date: Jan 1, 1993**

**Hazardous Waste Manifest Data:**

[HAZNET](#)

A list of hazardous waste manifests received each year by Department of Toxic Substances Control (DTSC). The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

**Government Publication Date: Oct 24, 2016**

**Historical Hazardous Waste Manifest Data:**

[HIST MANIFEST](#)

A list of historic hazardous waste manifests received by the Department of Toxic Substances Control (DTSC) from year the 1980 to 1992. The volume of manifests is typically 900,000 - 1,000,000 annually, representing approximately 450,000 - 500,000 shipments.

**Government Publication Date: Dec 31, 1992**

**DTSC Registered Hazardous Waste Transporters:**

[HW TRANSPORT](#)

The California Department of Toxic Substances Control (DTSC) maintains this list of Registered Hazardous Waste Transporters.

**Government Publication Date: Oct 19, 2020**

**Registered Waste Tire Haulers:**

[WASTE TIRE](#)

This list of registered waste tire haulers is maintained by the California Department of Resources Recycling and Recovery.

**Government Publication Date: Dec 16, 2020**

**California Medical Waste Management Program Facility List:**

[MEDICAL WASTE](#)

This list of Medical Waste Management Program Facilities is maintained by the California Department of Public Health. The Medical Waste Management Program (MWMP) regulates the generation, handling, storage, treatment, and disposal of medical waste by providing oversight for the implementation of the Medical Waste Management Act (MWMA). The MWMP permits and inspects all medical waste off-site treatment facilities, medical waste transporters, and medical waste transfer stations. This list contains transporters, treatment, and transfer facilities.

**Government Publication Date: Dec 31, 2020**

**Historical Cortese List:**

[HIST CORTESE](#)

List of sites which were once included on the Cortese list. The Hazardous Waste and Substances Sites (Cortese) List is a planning document used by the State, local agencies and developers to comply with the California Environmental Quality Act requirements for providing information about the location of hazardous sites.

**Government Publication Date: Nov 13, 2008**

**Cease and Desist Orders and Cleanup and Abatement Orders:**

[CDO/CAO](#)

The California Environment Protection Agency "Cortese List" of active Cease and Desist Orders (CDO) and Cleanup and Abatement Orders (CAO). This list contains many CDOs and CAOs that do NOT concern the discharge of wastes that are hazardous materials. Many of the listed orders concern, as examples, discharges of domestic sewage, food processing wastes, or sediment that do not contain hazardous materials, but the Water Boards' database does not distinguish between these types of orders.

**Government Publication Date: Jul 19, 2020**

**California Environmental Reporting System (CERS) Hazardous Waste Sites:**

[CERS HAZ](#)

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator. The CalEPA oversees the statewide implementation of the Unified Program which applies regulatory standards to protect Californians from hazardous waste and materials.

**Government Publication Date: Sep 24, 2021**

**Delisted Environmental Reporting System (CERS) Hazardous Waste Sites:**

**DELISTED HAZ**

This database contains a list of sites that were removed from the California Environmental Protection Agency (CalEPA) in the following regulatory programs: Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, RCRA LQ HW Generator.

**Government Publication Date: Nov 29, 2018**

**Sites in GeoTracker:**

**GEOTRACKER**

GeoTracker is the State Water Resource Control Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. This is a list of sites in GeoTracker that aren't otherwise categorized as LUST, Land Disposal Sites (LDS), Cleanup Sites, or sites having Waste Discharge Requirements (WDR). This listing includes program types such as Underground Injection Control (UIC), Confined Animal Facilities (CAF), Irrigated Lands Regulatory Program, plans, and non-case information.

**Government Publication Date: Jun 22, 2021**

**Mines Listing:**

**MINE**

This list includes mine site locations extracted from the Mines Online database, maintained by the California Department of Conservation. Mines Online (MOL) is an interactive web map designed with GIS features that provide information such as the mine name, mine status, commodity sold, location, and other mine specific data. Please note: Mine location information is provided to assist experts in determining the location of mine operators in accordance with California Civil Code section 1103.4 and reflects information reported by mine operators in annual reports provided under Public Resources Code section 2207. While the Division of Mine Reclamation (DMR) attempts to populate MOL with accurate location information, the DMR cannot guarantee the accuracy of operator reported location information.

**Government Publication Date: Jan 12, 2021**

**Recorded Environmental Cleanup Liens:**

**LIEN**

The California Department of Toxic Substance Control (DTSC) maintains this list of liens placed upon real properties. A lien is utilized by the DTSC to obtain reimbursement from responsible parties for costs associated with the remediation of contaminated properties.

**Government Publication Date: Nov 16, 2020**

**Waste Discharge Requirements:**

**WASTE DISCHG**

List of sites in California State Water Resources Control Board (SWRCB) Waste Discharge Requirements (WDRs) Program in California, made available by the SWRCB via GeoTracker. The WDR program regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

**Government Publication Date: Jun 22, 2021**

**Toxic Pollutant Emissions Facilities:**

**EMISSIONS**

A list of criteria and toxic pollutant emissions data for facilities in California made available by the California Environmental Protection Agency - Air Resources Board (ARB). Risk data may be based on previous inventory submittals. The toxics data are submitted to the ARB by the local air districts as requirement of the Air Toxics "Hot Spots" Program. This program requires emission inventory updates every four years.

**Government Publication Date: Dec 31, 2019**

**Clandestine Drug Lab Sites:**

**CDL**

The Department of Toxic Substances Control (DTSC) maintains a listing of drug lab sites. DTSC is responsible for removal and disposal of hazardous substances discovered by law enforcement officials while investigating illegal/ clandestine drug laboratories.

**Government Publication Date: Jan 19, 2021**

**Tribal**

**No Tribal additional environmental record sources available for this State.**

**County**

**No County additional environmental databases were selected to be included in the search.**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

**APPENDIX E**  
**ASTM QUESTIONNAIRES**

**ASTM E1527-13  
OWNER/LANDLORD/OCCUPANT INTERVIEW QUESTIONS**

**Project Number / Name:** 1121001 / Via West Group  
**Assessor Parcel Number (APN):** 228-312-05-00 & 228-312-06-00  
**Project Address:** Myers Avenue South of Barnham Drive  
Escondido, San Diego County, California

1. What is/are the Current Use(s) of the Property, to the best of your knowledge?

Vacant land zoned industrial

2. What was/were the Past Use(s) of the Property, to the best of your knowledge?

Vacant land

3. Are there now or were there ever present any aboveground storage tanks, underground storage tanks or vent pipes, fill pipes or accessways indicating underground storage tanks?

No

4. Are there any areas of the site with strong, pungent, or noxious odors?

No

5. Are there any areas of standing surface water, including Pools or sumps?

No

6. Are there any Hazardous Substances and/or Petroleum Product Containers currently stored on site?

No

7. Are there any unlabelled Drums or any Unidentified Substance Containers stored on the property?

No

8. Is there any Electrical or hydraulic equipment known to contain PCBs or likely to contain PCBs?

No

9. Do you know of any spills or other chemical releases that have taken place at the property?

No

10. Do you know of any environmental cleanups that have taken place at the property?

No

11. Are you aware of any deed restrictions or other activity or land use restrictions that have been placed on the property as a result of an environmental issue?

No

12. Are you aware of any environmental liens, unresolved notices of violation, or litigation related to a contamination issue at the property?

No

13. Are you aware of any previous assessments conducted at the subject property?

Yes - Phase 1 completed by your group on November 20, 2020

ASTM E1527-13  
USER SPECIFIC QUESTIONNAIRE

Project Number / Name: 1121001 / Via West Group  
Assessor Parcel Number (APN): 228-312-05-00 & 228-312-06-00  
Project Address: Myers Avenue South of Barnham Drive  
Escondido, San Diego County, California

In order to comply with the ASTM E1527-13 Standard and qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the *user* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The *user* should provide the following information to the *environmental professional*. Failure to conduct these inquiries could result in a determination that "*all appropriate inquiries*" is not complete. Please provide the following information (if available). Your answers will be incorporated into the final Phase I ESA under the section "User-supplied Information."

**(1.) Environmental cleanup liens that are filed or recorded against the property (40 CFR 312.25).**

Did a search of *recorded land title records* (or judicial records where appropriate, see NOTE below) identify any environmental liens filed or recorded against the *property* under federal, tribal, state or local law? (NOTE - In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases judicial records must be searched for environmental liens and AULs.

No

**(2.) Activity and land use limitations (AULs) that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).**

Did a search of *recorded land title records* (or judicial records where appropriate, see NOTE above) identify any AULs, such as *engineering controls*, land use restrictions, or *institutional controls* that are in place at the *property* and/or have been filed or recorded against the *property* under federal, tribal, state or local law?

No

**(3.) Specialized knowledge or experience of the person seeking to qualify for the Landowner Liability Protections (LLP - 40 CFR 312.28).**

As the *user* of this *ESA* do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business? (self-explanatory)

n/a

**(4.) Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29).**

Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

Yes

**(5.) Commonly known or *reasonably ascertainable* information about the *property* (40 CFR 312.30).**

Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user*,

(a.) Do you know the past uses of the *property*?

Vacant land

(b.) Do you know of specific chemicals that are present or once were present at the *property*?

Unknown but clean environmental report historically

(c.) Do you know of spills or other chemical releases that have taken place at the *property*?

No, clean environmental report historically

(d.) Do you know of any environmental cleanups that have taken place at the *property*?

No, clean environmental report historically

**(6.) The degree of obviousness of the presence of likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).**

As the *user* of this *ESA*, based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?

No

In addition, certain information should be collected, if available, and provided to the *environmental professional* selected to conduct the Phase I. This information is intended to assist the *environmental professional* but is not necessarily required to qualify for one of the *LLPs*. The information includes:

(a) the reason why the Phase I is required,

Due diligence for purchase - lender/capital requirement

(b) the type of *property* and type of *property* transaction, for example, sale, purchase, exchange, etc.,

Vacant industrial land - purchase

(c) the complete and correct address for the *property* (a map or other documentation showing *property* location and boundaries is helpful),

2351 Meyers Ave. Escondido, CA

(d) the scope of services desired for the Phase I (including whether any parties to the *property* transaction may have a required standard scope of services on whether any considerations beyond the requirements of Practice E 1527 are to be considered),

Update to previous ESA

(e) identification of all parties who will rely on the Phase I *report*,

Capital partners - unknown at this time, debt partners -  
Developer - ViaWest Group unknown at this time, City of Escondido Planning / Environmental,  
CEQA Consultant - Mary Lanier

(f) identification of the site contact and how the contact can be reached,

Rodney C. Boden, 808.840.3985, rboden@viawestgroup.com

(g) any special terms and conditions which must be agreed upon by the *environmental professional*, and

n/a

(h) any other knowledge or experience with the *property* that may be pertinent to the *environmental professional* (for example, copies of any available prior *environmental site assessment reports*, documents, correspondence, etc., concerning the *property* and its environmental condition).

provided already to Tim Lester

VAPOR ENCROACHMENT SCREENING – USER QUESTIONNAIRE**

**Project Number / Name:** 1121001 / Via West Group  
**Assessor Parcel Number (APN):** 228-312-05-00 & 228-312-06-00  
**Project Address:** Myers Avenue South of Barnham Drive  
Escondido, San Diego County, California

1. Property type:         Commercial  Industrial  Multi-Tenant  Vacant Land
2. Are there any buildings/ structures on the property? Yes  No  Unknown   
If yes, type construction \_\_\_\_\_
3. Will buildings/structures be constructed on the property in the future? Yes  No  Unknown   
If yes, type construction \_\_\_\_\_
4. If buildings exist or are proposed, do/will they have elevators? Yes  No
5. Type of level below grade (existing or proposed)?  Full Basement  Crawl Space  Slab on grade  
 Parking Garage  Multi-level
6. Ventilation in level below grade? Yes  No  Unknown
7. Sump pumps, floor drains, or trenches (existing or proposed)? Yes  No  Unknown
8. Radon or methane mitigation system installed? Yes  No  Unknown
9. Heating system type (existing or proposed)? (CHECK ALL THAT APPLY)  
 Hot Air Circulation  Electric Baseboard  Hot Air Radiation  Heat Pump  Hot Water Radiation  
 Wood Stove  Kerosene Heater  Steam Radiation  Fireplace  Coal Furnace  Radiant Floor Heat  
 Hot Water Circulation  Fuel Oil Furnace  Gas Furnace  Other
10. Type of fuel energy (existing or proposed)? (CHECK ALL THAT APPLY)  
 Natural Gas  Electric  Propane  Fuel Oil  Kerosene  Wood  Coal  Solar  Other
11. Have there ever been any environmental problems at the property? Yes  No  Unknown   
If yes, describe) \_\_\_\_\_

12. Does/will a gas station or dry cleaner operate anywhere on the property? Yes  No  Unknown

13. Do any tenants use hazardous chemicals in relatively large quantities on the property? Yes  No   
Unknown

If yes, describe \_\_\_\_\_

14. Have any tenants ever complained about odors in the building or experienced health-related problems that may have been associated with the building? Yes  No  Unknown

15. Are the operations (or proposed operations to be performed) on the property OSHA regulated? Yes  No  Unknown

16. Are there any existing or proposed underground storage tanks (USTs) or above ground storage tanks (ASTs)? Yes.  No  Unknown

17. Are there any sensitive receptors (for example, children, elderly, people in poor health, and so forth) that occupy or will occupy the property? Yes  No  Unknown

**APPENDIX F**  
**RESUME OF ENVIRONMENTAL PROFESSIONAL**

# CURRICULUM VITAE

## TIMOTHY A. LESTER, C.E.M.

**Summary:** As a founder and managing partner providing Environmental Consulting and related services since 1996, Mr. Lester provides consulting and technical services as a Principal Scientist, Project Manager, expert witness for Due Diligence, Site Investigation, and Remediation at sites impacted by heavy metals, petroleum hydrocarbons, solvents, pesticides, PNA and PCB, and radionuclides (NORM). As a remediation specialist, he has hands on experience designing, installing, and managing large scale metals fixation, bioventing, soil vapor extraction, sparging, and free phase hydrocarbon recovery projects. His career in environmental investigation and remediation began in 1987, enhanced by four years of related experience in the geotechnical and petroleum exploration businesses. Mr. Lester has been an active participant on all phases of due diligence, site investigation, and remediation planning, cleanup strategy, feasibility evaluation, remedial implementation, and litigation support for a variety of industrial and commercial projects.

### Employment History

- 1996 TO PRESENT**     **FOUNDER/ EEI & TA-Group DD, LLC**  
Mr. Lester has been the project manager and technical resource for major real estate investment trusts (REIT) and commercial developments, and has managed all environmental due diligence, investigation, and cleanup for an aggregate of over \$400 million dollars in commercial properties. Additionally, Mr. Lester has managed all investigation, regulatory strategy, and cleanup at a number of fuel and solvent release sites in California, Oregon, Arizona, Nevada, New Mexico, and Washington related to former retail fuel release sites, and has managed and implemented soil and groundwater investigations at fuel and chlorinated solvent sites for other clients. Mr. Lester also was the primary environmental expert for a landfill chlorinated solvent case in Southern California, and has provided similar expert testimony on a number of environmental release cases.
- 1989 TO 1997**     **SR. PROJECT MANAGER, SR. GEOLOGIST, MARKETING MANAGER CLAYTON (FORMERLY MITTELHAUSER CORPORATION)** Actively managed southwest region Phase II investigations, remediation, and specialized regulatory projects. Evaluated investigation information and remedial alternatives while preparing Remedial Action Plans (RAP) for multi-contaminant impacted landfill site, numerous fuel impacted sites, a RCRA regulated utility remediation project, refinery bioventing projects, a California superfund townegas project, a bulk storage facility impoundment cleanup, and numerous other large remediation project sites. All RAPs were approved.  
  
Promotions included Project to Senior Geologist, to Geoservices and Technology Division Manager. Technical services included managing remediation projects, designing and coordinating investigation projects, and developing regulatory and technical strategy for Southwest Region. Provided expert witness services to remediation projects involving soil and groundwater contamination. Conceptualized, designed, and implemented a variety of large scale industrial bioventing (refinery, Utility RCRA, Townegas, bulk storage) and soil vapor extraction projects.
- 1987 TO 1989**     **PROJECT MANAGER**  
**NACHANT ENVIRONMENTAL, INC.** Promoted from staff to Project Geologist and Project Manager. Responsible for all phases of investigation and cleanup of sites primarily contaminated with fuel hydrocarbons, chlorinated hydrocarbons, and waste oils. Part of project team which developed, built, and implemented largest soil vapor extraction (1,000 cfm) project in state at that time.
- 1986 TO 1987**     **Geotechnical Technician and Geologist in Training**     **Geosoils, Inc.**
- 1983 TO 1986**     **Exploration Technician**     **ARCO Oil & Gas & ARCO Exploration**

# C.V., TIMOTHY A. LESTER, R.E.A. II, C.E.M.

## Representative Projects

PG&E Bioventing Project, Morro Bay, CA. Prepared proposal, conceptual design, and all preliminary costing for \$1.0M impoundment remediation project. Prepared Remedial Action Plan and met with regulators for this RCRA facility.

Mine Project, Mountain Pass, CA. Prepared proposal and all preliminary costing for \$5.6M mine remediation project. Project included regulatory, design engineering, construction, and field remediation of RCRA hazardous and NORM waste. Largest single (annual) project ever performed by company.

School Phase I ESA, Orange County, CA: Provided oversight activities for a Phase I ESA under DTSC guidance for the Running Springs school site in Orange County, California. Avoided a PEA and attained a DTSC No Further Action letter for the School District. Currently providing Preliminary Endangerment Assessment services to the Val Verde School District, Riverside, California on a Middle School project.

Bioventing Project, So. California Refinery: Provided all conceptual design for push-pull bioventing system in a site characterized by complex fine grained sediments. Contaminants included VOC, fuels, PNA, and heavy oil. Wrote approved Remedial Action Plan (LARWQCB). Managed field installation of innovative high vacuum (clay target) system. Project value \$400k.

Landfill Project, Palos Verdes, CA. Project Manager for all phases of regulatory strategy, Phase II investigations, remedial planning and design for site impacted by heavy metals, PCB, PNA, hydrocarbons, pesticides. Wrote approved RAP which utilized USEPA protocol risk assessment to reduce remediation to capping option; savings to \$3.0M. Total project value \$2.0M+

Scrap Metal Terminal, POLA, CA. For the largest scrap metal terminal in the western U.S., managed and implemented a Phase II investigation project for free phase hydrocarbons. Delineated occurrence and managed installation of borings, piezometers, and groundwater monitoring wells. Evaluated sites remedial options and prepared Remedial Action Plan (approved).

SVE Remediation Project, Santa Fe Springs, CA. Prepared proposal, prepared conceptual design, selected technology and equipment, managed field installation, and managed project for soil and groundwater investigation and cleanup project utilizing Soil Vapor Extraction in TCE, fuel, and PNA impacted soils. Dual nested system designed to remediate dual target fine grained and coarse grained target sediments. Closed site.

Bioventing Project, So. California State Superfund Site: Provided all conceptual design for appurtenants and push-pull biovent system, utilizing anhydrous ammonia nutrient feed. Wrote approved RAP (regional water quality control board and Cal-EPA) and coordinated final engineering. Managed installation of large, 20+ nested well (clay and sand) system. Project value \$700k.

## LITIGATION SUPPORT

As an Expert Witness, reviewed applicable soil contamination reports for a solvent release site at a former battery manufacturing site in the Los Angeles basin. Evaluated remedial alternatives, prepared conceptual remediation program, provided remedial cost estimates, and was deposed in Superior Court for the defendant. Testified in trial at Superior Court for the defendant. "Seventh Avenue Investment vs. Exide Corporation".

As an Expert Witness in a Southern California TCE/PCE solvent case: Provided soil contamination evaluation, conceptual design and costing for Soil Vapor Extraction remediation of PCE and TCE impacted site in the Los Angeles Basin. Testified as expert witness for defense.

As an Expert Witness, evaluated historical landfill soil, data, and SWAT data for chlorinated solvent release at site and neighboring facilities. Determined range of costs for appropriate remedial options and evaluated remedial actions and costs prepared by others. Testified in Trial at Superior Court in the County of San Diego, for the plaintiffs in "Bay National Properties, et al. vs. County of San Diego, et al. for Daley and Heft.

As technical support for the development of remediation alternative costs and feasibility, representing the defendants (joint defense team), in "Cedar-Sinai Medical Center vs. Atlantic Richfield Co., et al., in a soil and groundwater solvent contamination case related to a suspected dry cleaner release. Evaluated historical release data to soil and groundwater, evaluated remediation and disposal practices, cost control, and regulatory options.

## C.V., TIMOTHY A. LESTER, R.E.A. II, C.E.M.

Reviewed prior consultant soil and groundwater investigation and feasibility reports for solvents, metals, fuels, and other contaminants for a large industrial property with documented soil and groundwater contamination. Worked as technical support for the evaluation of remedial feasibility, options, and implementation costs. Representing the defendant, California Steel Industries, in the Kaiser Steel Industries bankruptcy proceedings, for Morgan, Lewis, and Bockius.

Named as Expert Witness for a chlorinated solvent and RCRA release site in the City of Industry superfund site. Inspected property, conducted soil investigation, and evaluated historical data at the site. Wrote an approved Remedial Action Plan for the facility and prepared soil vapor extraction remediation cost and implementation guidelines. Case was settled prior to trial. Work conducted for McDermott, Will and Emory.

### **Education**

Bachelor of Science, Geology, California State University Bakersfield  
Various Graduate Courses in Geochemistry, Fate and Transport

### **Publications/Presentations**

With C.E. Dial and D.J. Leu, "A Case Study of a refinery Bioventing Project", September, 1993, presented to the American Petroleum Institute, Baltimore, Maryland

"Vacuum Extraction, New Technologies and Wider Applications", May, 1989, presented at HAZMAT 1989, Anaheim, California

Lectures to Environmental Engineering classes at CSU Irvine, Winter, 1995: "Air Sparging", and "Free Phase Recovery"

### **Certifications**

Registered Environmental Assessor II No. 20047, State of California (FORMER/CA no longer uses this registration)  
Certified Environmental Manager No. EM-1754, State of Nevada  
HAZWOPER 40-hour OSHA Training  
HAZWOPER Site Supervisor 8-hour Training
