### **MINOR CONDITIONAL USE PERMIT – PHG 20-0013:**

**REQUEST:** A Minor Conditional Use Permit to install and operate an AT&T small wireless facility in the public right-of-way. The proposed facility involves mounting one (1) canister type antenna (24-inches tall x 15-inches in diameter) on top of an existing wooden utility pole. The proposed antenna would project from the pole by use of a 3'-6" "arm" or horizontal bracket/brace. Four (4), 7.8"-inch wide x 3.93"-inch deep x 7.8"-inch long radio units will be mounted onto the arm and risers for fiber and power, and AC disconnect will be attached to the side of the utility pole. Additional associated equipment is proposed to be placed in new underground concrete vaults (handhole). Trenching or boring is required to extend power and telecommunication lines underground to the new facility. The proposal also includes the adoption of the environmental determination prepared for the project.

**PROPERTY LOCATION:** The subject site is located in the public right-of-way on W. 5<sup>th</sup> Ave., between Vine St. and S. Upas St., adjacent to 1030 W. 5<sup>th</sup> Avenue.

**ENVIRONMENTAL STATUS:** The project is categorically exempt from the California Environmental Quality Act (CEQA), in conformance with Section 15303(b), Class 3, "New Construction or Conversion of Small Structures."

If you challenge these items in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the Planning Commission at, or prior to, the public hearing.
