

**USER RATES FOR POTABLE WATER**  
**Resolution No. 2017-14RRR**  
**Effective March 1, 2018**

CUSTOMER CLASS		COST PER 1,000 GALLONS
<b>Single Family Residential</b>		
Tier 1	0 to 7k gal	\$5.91
Tier 2	>7 to 15k gal	\$7.78
Tier 3	>15 k gal	\$9.22
<b>Residential/Agricultural Use</b>		
Tier 1	0 to 7k gal	\$5.81
Tier 2	>7 k gal	\$7.96
<b>Multi-Family Residential</b>		
Tier 1	0 to 5k gal	\$5.86
Tier 2	>5 to 7k gal	\$7.55
Tier 3	>7 k gal	\$8.79
<b>Commercial, Industrial &amp; School</b>		\$7.33
<b>Irrigation – Institutional – Landscape District</b>		\$7.80
<b>SD Zoo Safari Park</b>		\$7.77
<b>Special Unfiltered</b>		\$5.81
<b>Agricultural Use</b>		\$4.00

Reasons for Rate Increases

Rate increases effective March 1, 2018 are being used to address the following issues and planned investments:

- Critical capital improvement projects, including:
  - **WATER**- replacement and restoration of storage capacity to seismically-compromised Wohlford Dam; undergrounding a portion of the Escondido Canal; and future water tank replacement, water treatment plant rehabilitation, and aging tank removal projects.
  - **WASTEWATER** - expansion of the Hale Avenue Resource Recovery Facility’s (HARRF) secondary treatment capacity; construction of a recycled water system to serve eastern Escondido; and construction of the Micro-Filtration and Reverse Osmosis (MF/RO) Facility to remove salt from recycled water, improving its quality for agricultural use.
- Repair and replacement of at-risk pipes (water and wastewater) and equipment.

These activities and investments are designed to increase service reliability, meet and exceed public health standards and goals, address new regulations, and further improve financial health. Whenever possible, the City is pursuing grant funding to offset the cost of capital improvements.

Detector Check	\$57.06	N/A	N/A	

\*Note: City of Escondido Water Service Charge, MWD Readiness to Serve Charge, and SDCWA Infrastructure Access Charge are shown as a single Water Service Charge on your water bill.

**City of Escondido – Water Service Charge**

The City of Escondido Water Service Charge includes fixed water service costs such as maintenance of storage facilities, pipeline repair, meter reading, billing, and monitoring of water quality.

**Metropolitan Water District (MWD) - Readiness to Serve Charge**

The Metropolitan Water District (MWD) imports water from two sources, the Colorado River and Northern California. The Readiness to Serve Charge includes a “Delta Surcharge” to cover costs to obtain water lost to environmental restrictions on the Sacramento River Delta. The charge from MWD, effective July 1, 2018, is passed through from the City of Escondido to its customers.

**San Diego County Water Authority (SDCWA) - Infrastructure Access Charge**

Historically, the City of Escondido has purchased about 75% of its water from the San Diego County Water Authority (SDCWA). The ongoing drought in California has reduced local water supply so that water imports via the SDCWA currently account for 95% of Escondido’s water. The charge from SDCWA, effective January 1, 2018, is passed through from the City of Escondido to its customers.

**USER RATES FOR RECYCLED WATER**  
**Resolution No. 2017-14RRR**  
**Effective March 1, 2018**

<b>RECYCLED WATER</b>	<b>COST PER 1,000 GALLONS</b>
Commodity Rate	\$3.85
Agricultural Rate	\$2.70

6"	\$157,890	July 15, 1998
8"	\$252,620	July 15, 1998

\*Where a fee cannot be readily determined, the fee shall be based upon an Equivalent Dwelling Unit (EDU) flow of 750 gallons per day, and a \$4,690 fee per EDU.

**WASTEWATER RATES**  
**Resolution No. 2017-14RRR**  
**Effective March 1, 2018**

**Basis for Calculating Wastewater Rates**

Residential wastewater charges include a fixed charge, and a use charge based on wastewater flow. Wastewater flow is calculated using a defined percentage of the average internal (non landscape) winter water use per customer, from December to March of the previous year (see table and notes below regarding calculation percentages applied). Wastewater flow is capped at 10,000 gallons per month for single family residences and 8,000 gallons per month for multi-family residences and mobile homes.

CUSTOMER CLASS	UNIT	FIXED CHARGE	WASTEWATER FLOW COST PER 1,000 GALLONS
Single Family Residential*	Per unit/mo.	\$22.09	\$4.35
Multi-Family Dwelling*	Per dwelling unit/mo.	\$22.09	\$3.57
Mobile Home***	Per mobile home/mo.	\$22.09	\$2.27
Car Wash/Soft Water Service**	Per acct./mo.	\$22.09	\$6.60
Hotel/Motel without Dining**	Per acct./mo.	\$22.09	\$7.76
Hotel/Motel with Dining**	Per acct./mo.	\$22.09	\$11.23
Repair Shop/Service Station**	Per acct./mo.	\$22.09	\$6.93
Commercial Laundry**	Per acct./mo.	\$22.09	\$7.96
Laundromat**	Per acct./mo.	\$22.09	\$7.00
Hospital**	Per acct./mo.	\$22.09	\$7.51
Grocery Store with Meat Dept.**	Per acct./mo.	\$22.09	\$12.80
Industrial**	Per acct./mo.	\$22.09	\$10.43
Restaurant**	Per acct./mo.	\$22.09	\$12.63
All Other Commercial**	Per acct./mo.	\$22.09	\$7.92
Discharges to Brine Line	Per acct./mo.	\$22.09	\$0.81

\* Applied to 80% of monthly water usage

\*\* Applied to 90% of monthly water usage

\*\*\* Applied to 100% of water usage

CUSTOMER CLASS	UNIT	COST PER UNIT
High School	Per student/yr.	\$30.92
Elementary/Middle School	Per student/yr.	\$20.61
Church	Per 100 seats/mo.	\$42.94

CUSTOMER CLASS	WASTEWATER FLOW COST PER 1,000 GALLONS	BOD* COST PER POUND	TSS** COST PER POUND
Brewery/Winery	\$5.87	\$0.56	\$0.52

\* BOD = Biochemical oxygen demand

\*\* TSS = Total suspended solids

**WASTEWATER GREASE CONTROL PERMIT**

CATEGORY	CHARGE	EFFECTIVE DATE
Food Service Establishments	\$160 per year	September 1,2009
Automotive Service Establishments	\$160 per year	September 1,2009

**WASTEWATER CONNECTION FEES**

RESIDENTIAL USES	CHARGE	EFFECTIVE DATE
<b>Detached Single-Family Unit</b> per unit	\$7,500	September 2, 2006
